ACRONYMS

ASC	Annual School Census
ASPIRE	Actions to Strengthen Performance for Inclusive & Responsive Education
B-Form	Birth-Form/Child Registration Certificate
B. Ed.	Bachelor of Education
BS. Ed.	Bachelor of Science in Education
CT	Certificate of Teaching
DSF	Data Standardization Framework
ECCE	Early Childhood Care Education
EMIS	Education Management Information System
ESTs	Elementary School Teachers
GoPb	Government of Punjab
H.Sec./HSS	Higher Secondary School
HMs	Head Masters
IBAN	International Bank Account Numbers
ICT Tools	Information Communication Technology Tools
M. Ed.	Master of Education
MS. Ed.	Master of Science in Education
NADRA	National Databases and Registration Authority
NGOs	Non-Governmental Organizations
NSB	Non-Salary Budget
PEIMA	Punjab Education Initiatives Management Authority
PHCIP	Punjab Human Capital Investment Project
PITB	Punjab Information Technology Board
PMIU	Promgramme Monitoring and Implementation Unit
PSTs	Primary School Teachers
PTC	Primary Teaching Certificate
SCRIP	School Construction and Rehabilitation Program
SED	School Education Department
SIS	School Information System
sMosque	Mosque (Masjid/Maktib) School
SSs	Subject Specialist
SSSs	Senior Subject Specialist
SSTs	Secondary School Teachers
TALEEM	Transformation in Access, Learning, Equity, and Education Management

ACKNOWLEDGEMENTS

We extend our heartfelt appreciation to all the contributors of the Annual School Census 2023-2024. Special thanks are owed to the Annual School Census-ASC stakeholders committee members for their diligence in finalizing the key indicators in a timely manner, upon which data was collected. We are immensely grateful to the Data Center-PMIU Team and PITB for providing the crucial IT infrastructure, enabling the digital collection of data from schools.

Our deepest gratitude is reserved for the School Education Department, Government of the Punjab, whose consistent guidance and unwavering support were pivotal throughout the entire process. Their leadership and commitment have been the cornerstone of this successful endeavor, ensuring that every phase, from data collection to quality assurance and completion of this report was executed flawlessly.

We would also like to acknowledge the PMIU leadership for their untiring support and facilitation throughout the entire exercise and express our thanks to the support staff of PMIU for their indispensable assistance. Additionally, our appreciation goes to the Government of Punjab and education partners for their generous financial support.

Your collective efforts have not only been instrumental in the success of this census but have also reaffirmed our commitment to ensuring quality education for all children across the province.

EXECUTIVE SUMMARY

The Annual School Census (ASC), conducted via the School Information System (SIS), relies on self-reported information from schools. Typically, school-level data is collected annually by October 31st from all public schools. However, for the current year 2023-24, the ASC was conducted from March 1, 2024 to March 15, 2024, to incorporate 18 new indicators for the Data Standardization Framework (DSF) aimed at vertical and horizontal integration into a national open-source data portal led by the Federal Government. The availability of tablets in all public schools has now enabled the collection of reliable information in the shortest possible time.

Annual School Census is conducted each year to gauge the educational infrastructure developments in Punjab. The data collected from schools reflect the sanctioned and filled strength of teaching and non-teaching staff, enrollment, basic facilities like clean drinking water, electricity, toilets, boundary walls, libraries, labs and ICT based equipment available and many other indicators in the schools across Punjab.

The School Education Department in Punjab operates the largest network of public schools in Pakistan, with a total of 48,473 operational schools. Of these, 22,935 are boys' schools and 25,538 are girls' schools. The breakdown includes 32,344 primary schools, 7,226 middle schools, 8,077 high schools, and 814 higher secondary schools. District Chiniot has the lowest number of schools (698), while District Rahim Yar Khan has the highest (2,775). In addition to this, School Education Department manages 11,897 schools through public private partnerships under Punjab Education Foundation – PEF and PEIMA. Whereas 28 schools' facilities are being managed under Daanish schools & center of excellence authority.

There are 11,968,153 students enrolled in these 48,473 schools, with 6,079,733 girls and 5,888,420 boys. Enrollment figures include 7,311,873 students in primary schools, 2,958,680 in middle classes, 1,561,114 in grades 9 and 10, and 136,486 in grades 11 and 12. District Faisalabad has the highest number of enrolled students (861,616), while District Lodhran has the lowest (155,282).

The School Education Department has placed significant emphasis on Early Childhood Care Education (ECCE) to lay a strong foundation for young learners. Currently, there are 21,487 classrooms dedicated to ECCE students, marking a substantial increase from just 2,370 classrooms in 2016. This expansion reflects the department's commitment to early childhood education, recognizing its critical role in shaping the cognitive, social, and emotional development of children.

Currently, 333,039 teachers are teaching in these 48,473 schools, which accounts for 74% of the total sanctioned posts. Among these teachers, 187,232 are female, and 145,807 are male. In terms of educational qualifications, 204,640 teachers hold a master's degree, 40,468 have an M.Phil., and 752 possess a Ph.D. This highly qualified teaching force underscores the School Education Department's dedication to ensuring that students receive quality education from well-educated and trained professionals.

The overall trend in enrollment numbers has increased over the years, while the number of teachers has decreased from 377,895 in 2019 to 333,039 in 2024.

The School Education Department has prioritized the construction of classrooms through various means, including assistance from international donors. There are a total of 282,745 fully functional classrooms in these schools. The student-to-classroom ratio is a good indicator of providing students with an adequate learning environment. In primary schools, the ratio is 35 students per classroom, in middle schools, it is 38 students per classroom, whereas in high schools, it rises to 47 students per classroom, and in higher secondary schools, it is 53 students per classroom.

The provision of basic facilities in Punjab schools has seen significant progress, with high percentages of schools having access to essential amenities like drinking water (99.5%), electricity (99.2%), and functional toilet blocks (99.6%). However, playground facilities remain underdeveloped, with only 52.5% of schools having this provision. The number of toilets has also increased in public schools, with a student-to-toilet ratio of 35:1 in primary schools, 48:1 in middle schools, 61:1 in high schools, and 65:1 in higher secondary schools.

Daanish schools, comprising 28 institutions, serve 31,328 students with support from 1,092 teachers. The Punjab Education Foundation (PEF) oversees 7,621 schools, catering to 2,796,521 students and supported by 102,718 teachers. The Punjab Education Initiative Management Authority (PEIMA) manages 4,276 primary schools, nurturing 614,166 students, and supported by 20,655 teachers, with a balanced enrollment of 311,493 boys and 302,673 girls.

The Program Monitoring and Implementation Unit plays a crucial role in monitoring the school system to evaluate its effectiveness and track changes over time. The Annual School Census is a vital tool in this process, providing comprehensive data that is invaluable to a wide range of stakeholders, including government entities, education practitioners, researchers, and donors. This data helps diagnose past trends, identify strengths and weaknesses, and serves as evidence for developing and improving the existing education system. The insights derived from the ASC data are essential for shaping policy development, implementing programs, and fostering innovations in education.

MESSAGES

Education stands as the cornerstone of progress for our beloved country. It is through education that we empower our youth with the knowledge and skills necessary to navigate the challenges of the modern world.

Despite tireless efforts, the staggering number of over 12 million Out-of-School-Children (OOSC) in the Punjab province continue to pose a significant challenge to our educational endeavors. In the face of scarce financial resources, effective planning becomes paramount as we need to strategize our investments to ensure that every rupee spent yields maximum impact.

I am confident that The Annual School Census 2023-24 will serve as a valuable resource for effective planning and implementation. By utilizing this data, we will be able to develop and implement targeted initiatives to advance education in Punjab, ensuring our efforts translate into tangible results.

I express my deepest gratitude to all stakeholders involved in the compilation of this Annual School Census 2023-24 Report. Your dedication and hard work have provided us with invaluable insights that will guide our efforts in the days to come.

Together, let us reaffirm our commitment to building a brighter future for the children of Punjab.

Rana Sikandar Hayat Khan

Minister for Education
Government of the Punjab

Punjab's education landscape is undeniably multifaceted, presenting us with a myriad of challenges. Among these challenges, we recognize the glaring gaps in the provision of educational facilities across our districts.

Efforts to enhance the efficiency of our education system demand a multifaceted approach. We are exploring avenues such as direct management, Public-Private Partnerships in school management and teacher education. However, effective strategies require a foundation built upon evidence-based planning, which hinges on the availability of reliable data.

In this regard, the Annual Census Report assumes paramount importance. It serves as a linchpin for informed decision-making, providing us with the necessary insights to address our educational challenges comprehensively.

The significance of data cannot be overstated. It serves as the bedrock for accurate estimations, facilitating the formulation of result-oriented policies and the development of practical solutions. Moreover, it enables us to align our efforts with timelines and international benchmarks such as the Sustainable Development Goal 4: Ensure Inclusive and Equitable Quality Education and promote lifelong learning opportunities.

As we embark on this journey towards educational excellence, let us harness the power of data-driven decision-making to steer our initiatives towards achieving our shared vision of inclusive and equitable education for all.

Dr. Ehtisham Anwer

Secretary School Education Department
Government of the Punjab

In our pursuit of educational excellence, reliable data stands as the foundation for effective planning and system strengthening. Regular data collection, analysis, and the availability of processed information are indispensable tools for policy planners and decision-makers.

At PMIU-PESRP, we recognize the paramount importance of reliable data. We are committed to establishing a robust system for data collection and analysis, ensuring that policymakers have access to timely and accurate information. Over the years, Annual School Census has provided foundation for efficiently planning and implementation of initiatives in school education departments initiatives. The Annual School Census has added new indicators to standardize data across all provinces, as recommended by the Pakistan Institute of Education (PIE). This marks the initial step towards establishing a national open-source data portal for both national and international reporting.

As we continue to strive for excellence in education, let us collectively reaffirm our commitment to data-driven decision-making. Together, let us build a future where every child in Punjab has access to quality education and lifelong opportunities for growth and success.

Muhammad Farooq Rasheed

Programme Director

Programme Monitoring & Implementation Unit - PESRP

School Education Department Punjab

INTRODUCTION

Annual School Census

The ASC is a cornerstone of educational planning and development in Punjab. It collects comprehensive data on various aspects of the school system, including student enrollment, staff strength, infrastructure, and facilities, providing policymakers and administrators with a clear and accurate picture of the current state of education. This data-driven approach ensures that decisions are informed and evidence-based, aiding in the formulation of policies, resource allocation, and the design of interventions tailored to address specific needs and challenges within the education system.

The ASC helps identify trends over time, such as changes in enrollment rates, teacher-student ratios, and the availability of essential facilities, allowing stakeholders to pinpoint gaps and areas requiring immediate attention. Insights from the ASC are crucial for developing effective educational policies and implementing programs to enhance various aspects of the school system, from infrastructure development to teacher training. Accurate data facilitates efficient resource allocation, ensuring that funding and support are directed where they are most needed.

Moreover, the ASC plays a vital role in monitoring and evaluating the effectiveness of educational programs and initiatives. By comparing data year over years, stakeholders can assess the impact of these programs and make necessary adjustments to improve outcomes. The ASC also engages a wide range of stakeholders, including researchers, donors, and education practitioners, providing a solid evidence base for their work and fostering collaboration towards common educational goals.

Ultimately, the ASC aims to improve educational outcomes by creating a more conducive learning environment for students. It promotes accountability and transparency within the education system by making data publicly available, allowing stakeholders to hold educational

authorities accountable for their performance. The flexibility of the ASC in incorporating new indicators, as seen with the addition of 18 new indicators for the Data Standardization Framework, demonstrates its adaptability in responding to emerging challenges and ensuring that the education system remains resilient and responsive to change. Thus, the ASC is an indispensable tool for the continuous improvement and sustainability of education in Punjab.

This report delve on the state and profile of public sector education in Punjab provides a comprehensive overview of the current landscape, historical trends, and key aspects of the educational system. It begins with an introduction to the School Education Department, followed by an analysis of the education landscape, highlighting the distribution and types of schools. The report delves into historical trends shaping the sector and examines the current profile of public sector schools categorized by level, gender, rural-urban split, medium of instruction, and shifts. Detailed insights into school buildings and infrastructure are provided, covering safety, basic amenities, and educational support facilities. Additionally, the report explores enrollment profiles, teacher demographics, district-wise statistics, and trends in public sector education, including the emerging focus on transgender schools. This structured layout ensures a thorough understanding of Punjab's public education system for policymakers, educators, education managers, sector experts, and stakeholders.

Programme Monitoring & Implementation Unit (PMIU-PESRP)

The Programme Monitoring and Implementation Unit (PMIU), Punjab Education Sector Reforms Programme (PESRP) within the School Education Department, serves as both the intellectual hub and operational arm of educational initiatives in Punjab. It plays a pivotal role in overseeing and ensuring the effective implementation of educational reforms and programs. PMIU is tasked with monitoring the progress of various educational initiatives, evaluating their effectiveness, and ensuring they meet their objectives. A critical function of PMIU is the collection, management, and analysis of data related to the education sector, including conducting the ASC. This comprehensive data gathering provides valuable insights into student enrollment, school infrastructure, teaching staff, and available facilities, which support the development of evidence-based educational policies.

PMIU ensures that educational reforms are implemented efficiently and tracks their progress, identifying any issues or challenges that need addressing. By providing reliable data and reports, PMIU engages with a wide range of stakeholders, including government bodies, educational institutions, donors, and NGOs, fostering collaboration and aligning efforts towards common educational goals. Additionally, PMIU is involved in implementation of large scale donor funded projects, distribution of free text books in the province and disbursement of Non-Salary Budget (NSB) to all schools.

Through its rigorous monitoring and data-driven analysis, PMIU identifies best practices and innovative approaches that can be scaled up or replicated, continuously improving the quality and effectiveness of education in Punjab. By promoting accountability and transparency within the education sector, PMIU ensures that educational authorities are held accountable for their performance, building trust among stakeholders and the general public. In summary, PMIU is essential in driving the ongoing efforts to improve the quality and governance of education in Punjab, ensuring that educational reforms and programs achieve their intended impact.

METHODOLOGY

4

Introduction

The ASC aims to gather comprehensive data on student enrollment, school infrastructure, teaching and non-teaching staff, and educational resources across all public schools. This data is essential for educational planning, policy-making, and resource allocation by the School Education Department (SED). The ASC captures data at a single point in time, specifically on October 31st each year.

Roles & Responsibilities

School Education Department (SED)

Overall Responsibility: The SED is responsible for conducting the ASC across the province.

Authorization: The Secretary of Schools grants permission to initiate the ASC.

Approval: The SED approves the ASC report before it is finalized and disseminated to relevant stakeholders.

PMIU-PESRP

Coordination: Once authorized by the SED, PMIU-PESRP coordinates with the Punjab Information Technology Board (PITB) to incorporate new variables and share the ASC activity timelines.

Training: PMIU-PESRP trains Master Trainers (MTs) at the provincial level, comprising Assistant Education Officers (AEOs) and Senior Data Processors (SDPs) from District Monitoring Office (DMO) offices. These MTs further train Master Trainers at the district, tehsil, markaz, and school levels.

Mock Exercises: PMIU-PESRP conducts mock exercises to test the School Information System (SIS) application after incorporating new variables by PITB. Issues faced by schools in using the SIS application are reported to PMIU-PESRP, which coordinates with PITB to resolve these issues before schools begin uploading data.

Data Anomalies: PMIU-PESRP extracts data anomalies from ASC data and communicates these anomalies to schools for rectification and resubmission.

Reporting: PMIU-PESRP compiles and publishes the final ASC report.

Cheif Executive Officers (CEOs) of District Education Authorities (DEAs)

Responsibility: The CEO of the DEA is responsible for ensuring accurate data is uploaded to the SIS.

Certification: CEOs provide certification to PMIU on the accuracy of the data from their respective districts.

Assistant Education Officers (AEOs)

Training: AEOs act as super master trainers and further train School Heads of Masjid Maktab, Primary, and Middle Schools.

Verification: AEOs verify the submitted ASC data from School Heads and ensure that verified data is stored in the final ASC database.

Senior Data Processors (SDPs)

Training: SDPs act as super master trainers and further train IT teachers of High and Higher Secondary Schools.

Verification: SDPs verify the submitted ASC data from IT Teachers and ensure that verified data is stored in the final ASC database.

Head Teachers

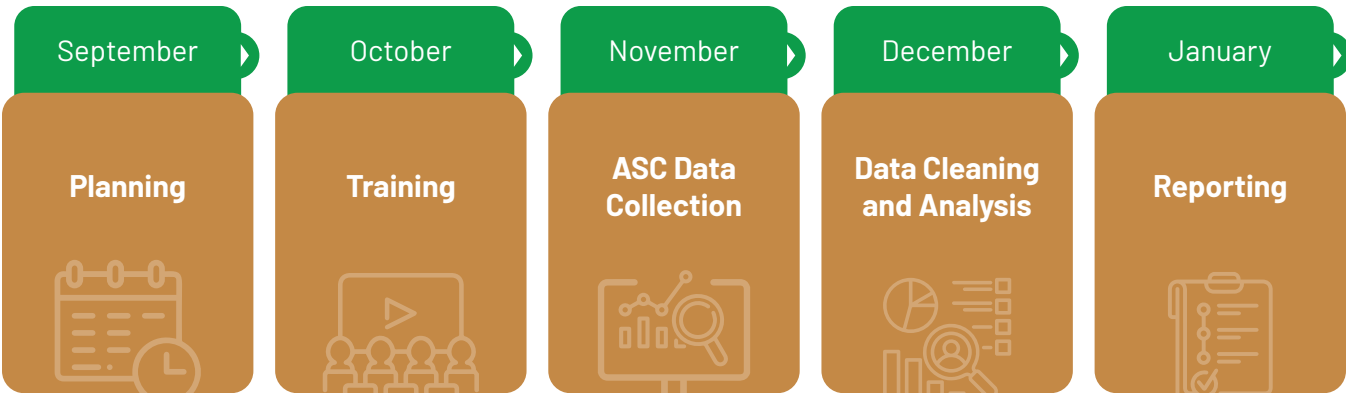

Responsibility: Head Teachers of primary, middle, and masjid maktab schools are responsible for uploading ASC data to the SIS application and ensuring its accuracy.

IT Teachers

Responsibility: IT Teachers in High and Higher Secondary Schools are responsible for uploading ASC data to the SIS application.

Annual School Census Timelines

The ASC is a systematic data collection process crucial for educational planning and policy-making. Following the Data Standardization Framework (DSF) guidelines, the ASC typically collects data on October 31st each year. However, for the 2023-24 census, data collection occurred in March 2024 due to the incorporation of 18 new variables for data standardization among all provinces.

Conclusion

The Annual School Census, conducted under the coordination of PMIU-PESRP and the supervision of the SED, ensures comprehensive and accurate data collection across all public schools in Punjab. This systematic approach supports informed decision-making and strategic planning to enhance the quality and infrastructure of the educational system.

PUBLIC SECTOR EDUCATION IN PUNJAB - ANNUAL SCHOOL CENSUS 2023-24

5

a. Education Landscape in Punjab

The education sector in Pakistan consists of 60,398 schools, catering to 15,410,343 students and employing 457,504 teachers. School Education Department has the largest share, comprising 48,473 schools, 11,968,153 students, and 333,039 teachers. The Punjab Education Foundation (PEF) operates 7,621 schools with 2,796,521 students and 102,718 teachers, while the Punjab Education Initiatives Management Authority (PEIMA) manages 4,276 schools with 614,341 students and 20,655 teachers. Additionally, there are 16 Daanish Schools with 10,461 students and 506 teachers, as well as 12 Centers of Excellence Schools with 20,867 students and 586 teachers.

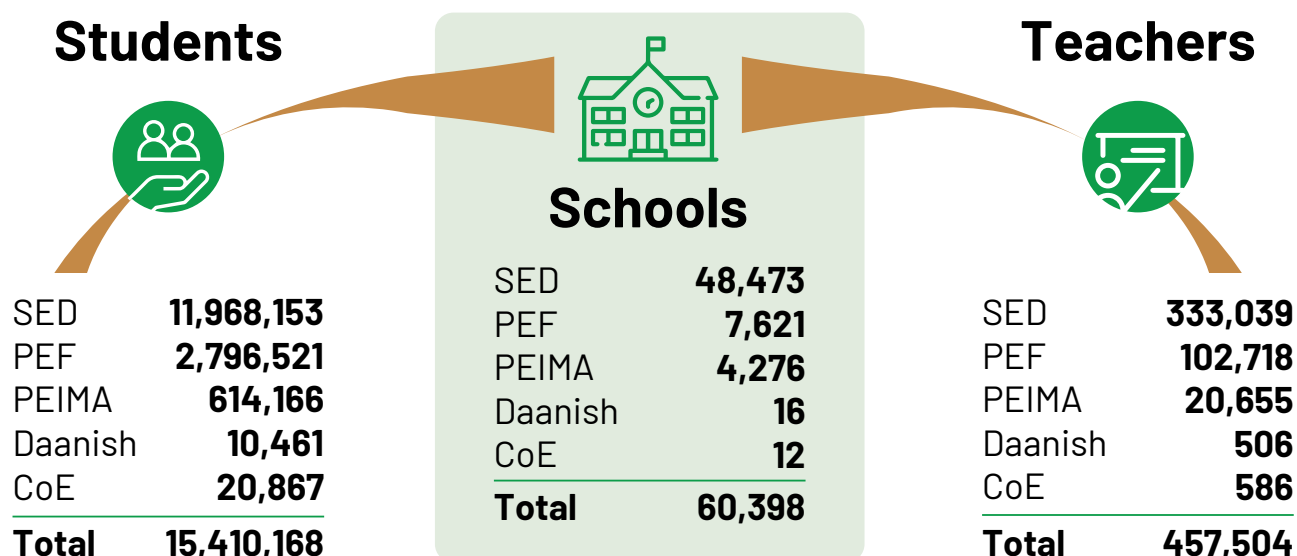

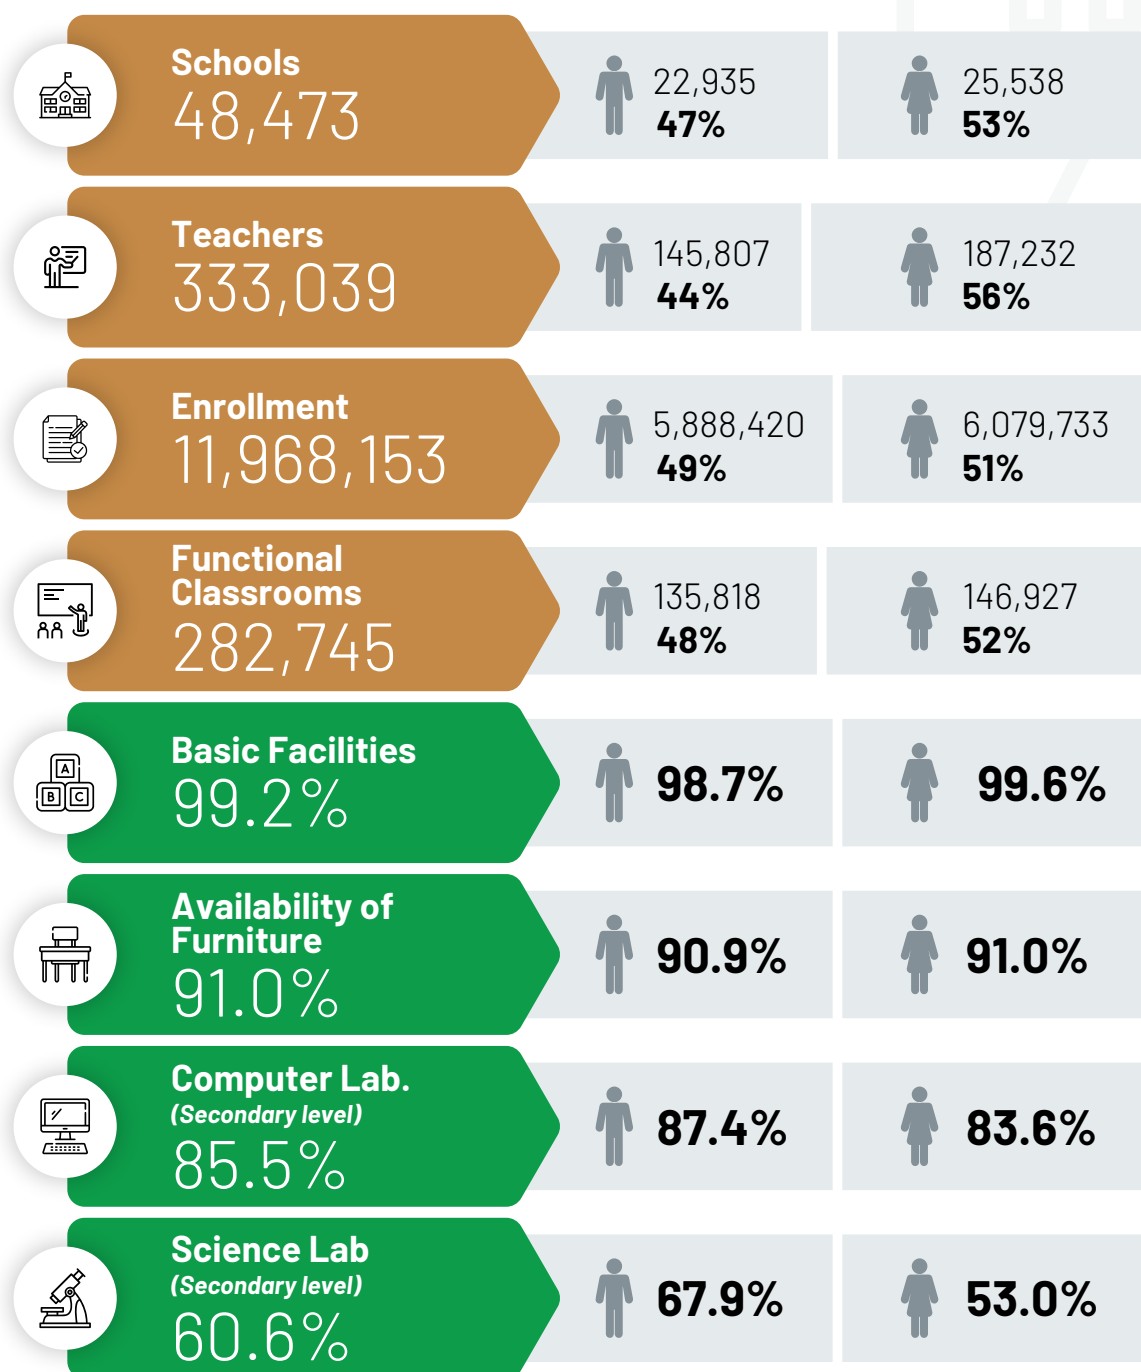

Figure 1: Landscape of public schools in Punjab

I. School Education Department

The School Education Department of Punjab oversees a total of 48,473 schools, which include 22,935 schools for boys and 25,538 schools for girls. The total student enrollment is 11,968,153, comprising 5,888,420 boys and 6,079,733 girls. The department employs 333,039 teachers, with 145,807 male teachers and 187,232 female teachers.

Key Statistics

b. Historical Trend

Over the years from 2003-04 to 2023-24, school enrollment in Punjab has shown a general upward trend, starting at 9.3 million and reaching 12.6 million. However, it is noteworthy that the data corresponds with the general perception that enrollment dropped due to the Covid-19 pandemic. Additionally, the trend indicates a decline in the number of schools alongside an increase in enrollment, resulting in a higher number of students per school.

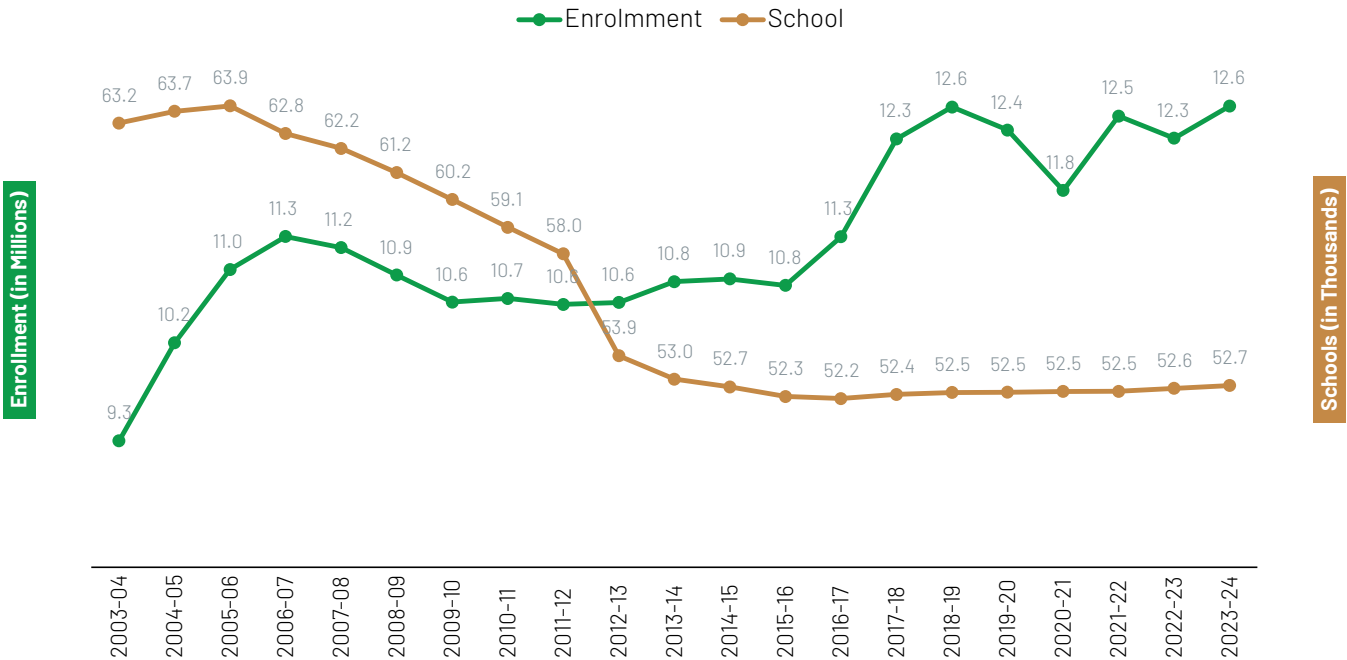

Figure 2: Trend of schools & enrollment since 2003-04

* Including SED & PEIMA

c. Public Sector Schools – School Education Department

i. Schools by Level

In Punjab School Education Department has 48,473 schools, divided into different levels. There are 12 schools in Masjid Maktib, 32,344 primary schools, 7,226 middle schools, 8,077 high schools, and 814 higher secondary schools.

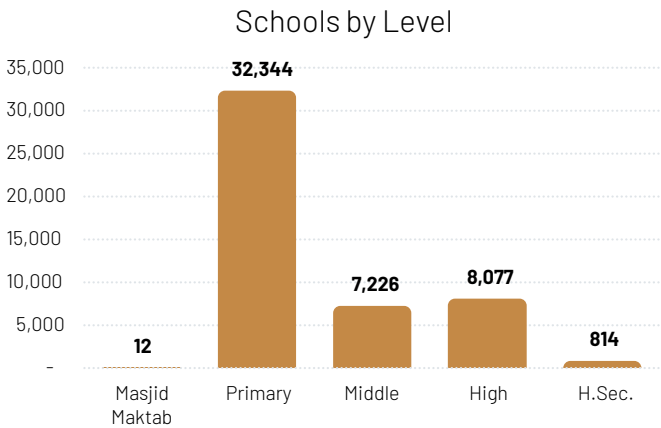

Figure 3: Public schools by gender

ii. Schools by Gender

The public education sector in Pakistan has a total of 48,473 schools, divided into different levels. At the mosque level, there are 12 schools with only male students. The primary level has 15,421 schools for males and 16,923 schools for females, totaling 32,344 schools. The middle level has 2,961 schools for males and 4,265 schools for females, totaling 7,226 schools. The high level has 4,146 schools for males and 3,931 schools for females, totaling 8,077 schools. Finally, the higher secondary level has 395 schools for males and 419 schools for females, totaling 814 schools. Overall, there are 22,935 schools for males and 25,538 schools for females in the public education sector.

Notably, the gender disparity in the number of schools is evident, with a higher number of schools catering to females at the primary and middle levels, while males have a slightly higher number of schools at the high level.

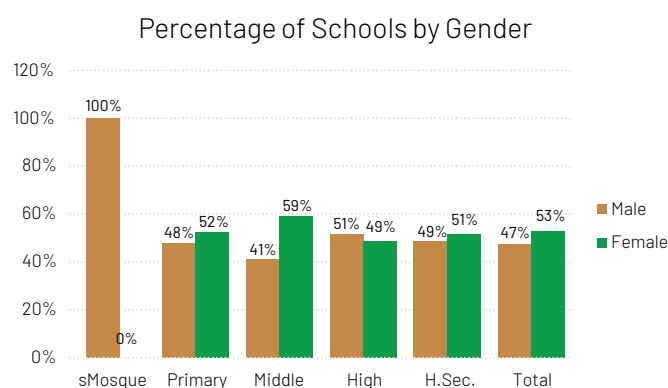

Figure 4: Public schools by level

iii. Rural and Urban split of schools

According to the 2023 population census, Punjab has a total population of 127,688,922, with a significant majority (59.9%) residing in rural areas (75,715,270) compared to urban areas (51,973,652, 40.7%). This rural-urban divide is reflected in the distribution of public schools. The district-wise breakdown of schools in Punjab, Pakistan, shows a total of 48,473 schools, with 42,823 schools in rural areas and 5,650 schools in urban areas. The districts with the highest number of schools are Rahimyar Khan (2,775), Bahawalnagar (2,132), and Sargodha (1,922). The districts with the lowest number of schools are Chiniot (698), Hafizabad (734), and Pakpattan (858).

Figure 5: Schools by urban and rural split

iv. Schools by Medium of Instructions

Urdu dominates as the medium of instruction in 71% of schools (34,238), while English is used in 11% of schools (5,348). Interestingly, 18% of schools (8,887) adopt a bilingual approach, using both English and Urdu as mediums of instruction.

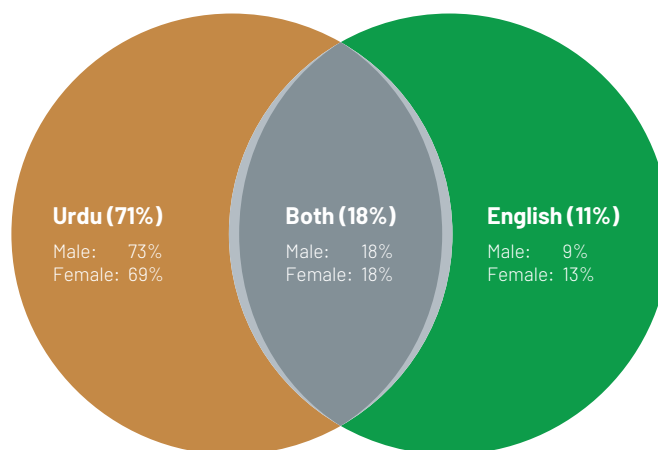

Figure 6: Schools by medium of instruction

v. Shifts in public schools

In Punjab, the majority of public schools operate in the morning shift, with a total of 41,187 schools following this schedule. However, to address the issue of overcrowding in urban areas and the lack of boys' and girls' high schools in many union councils, the School Education Department (SED) introduced afternoon shifts in 7,263 schools. This double shift arrangement aims to accommodate a larger number of enrolled students. Additionally, 23 schools in the province operate in the evening shift, providing late-hour classes to cater to learners who require flexible scheduling. This multi-shift approach aims to enhance access to education and alleviate overcrowding in Punjab's public schools.

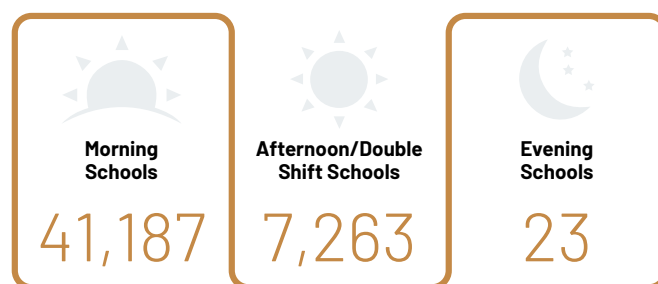

Figure 7: Morning, afternoon/double shift & evening shift schools

d. School Buildings & Infrastructure

i. Schools Buildings and Educational Infrastructure

A total 46,057 schools in the province Punjab are owned by School Education Department which is around than 95% of the total schools. Rest of the schools are under the ownership of local bodies and the community.

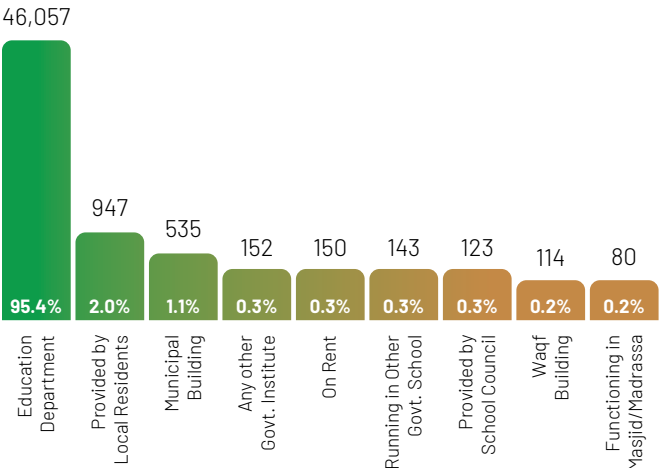

Figure 8: Schools by building ownership

Furthermore, 42,502 public schools which is 88% of the total, are categorized as well-constructed (completely solid). However, 5,287 (11 %) and 512 (1%) of the total (5,796 schools) fall under partial solid /partial rough and completely rough category. Completely rough refers to muddy construction.

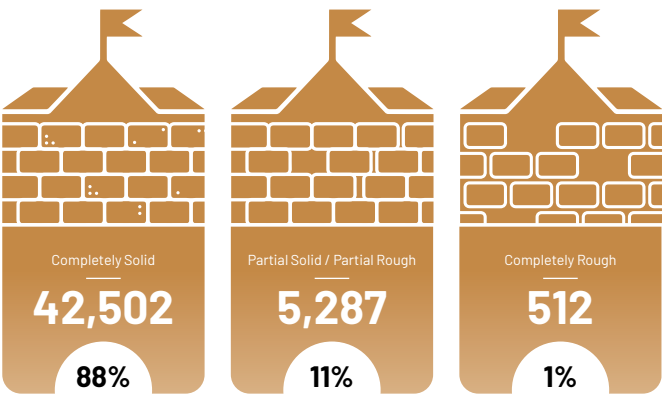

Figure 9: Schools by type of construction in public schools

ii. Safety Status of School Buildings Conditions

According to the findings of the ASC 2023-24, the condition of school buildings in Punjab presents a varied scenario. While a considerable majority of 36,581 schools (76%) have been assessed as satisfactory, a substantial number require remedial attention. Specifically, 6,099 schools (13%) necessitate minor repairs, 2,592 schools (5%) have been classified as partially dangerous, and 2,368 schools (5%) require comprehensive building renovations. Moreover, a concerning 661 schools (1%) have been deemed critically dangerous, underscoring the need for prompt infrastructure enhancements to ensure a safe and optimal learning environment for students.

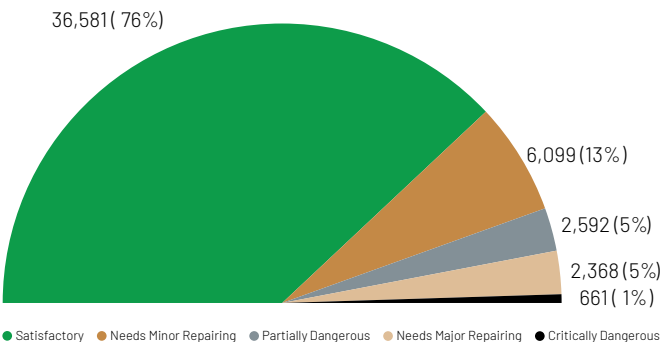

Figure 10: School by building conditions

iii. Provision of Basic Facilities

The provision of basic facilities in Punjab schools has seen significant progress, with high percentages achieving access to essential amenities like drinking water (99.5%), electricity (99.2%), and functional toilet blocks (99.6%). However, playground facilities lag behind, with only 52.5% of schools having this provision. development.

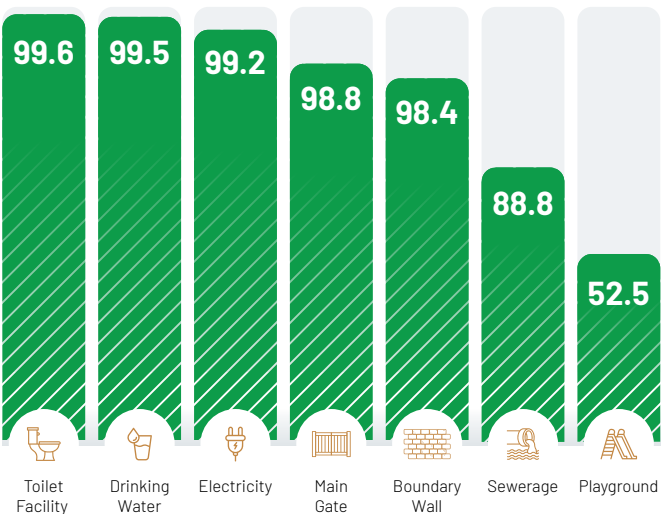

Figure 11: Availability of basic facilities

The Government of Punjab has addressed a critical obstacle to girls' education by providing separate toilet facilities, promoting privacy, safety, and dignity. This initiative has led to the construction of 112,272 separate toilets for girls in 34,210 out of 41,481 schools where girls students are enrolled, empowering girls to pursue their educational aspirations in a more inclusive environment, and aiming to increase enrollment and retention rates.

Figure 12: Availability of separate toilets for Female Students

iv. ECCE Facilities

Early years' experience not only shapes the development of brain but also leave a long-lasting impression on our lives. So, early years education is critically important for a better development of a person. School Education Department has established many ECCE classroom in public Schools. At present, a total number of 21,487 ECCE class rooms are available in public schools across Punjab. Out of 15,575 (72%) has been established with help of QAED, 3,400 (16%) PMIU under PHCIP project and 2,512 (12%) by others.

ECCE tools kits have also been provided in all schools with ECCE rooms. For ECCE classes ECCE trained teachers have also been appointed.

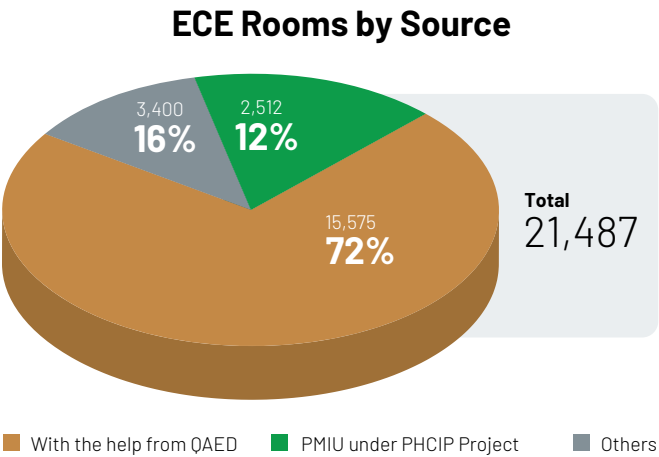

Figure 13: ECCE room sources

ECCE tools kits have also been provided in all schools with ECCE rooms. For ECC classes ECCE trained teachers have also been appointed.

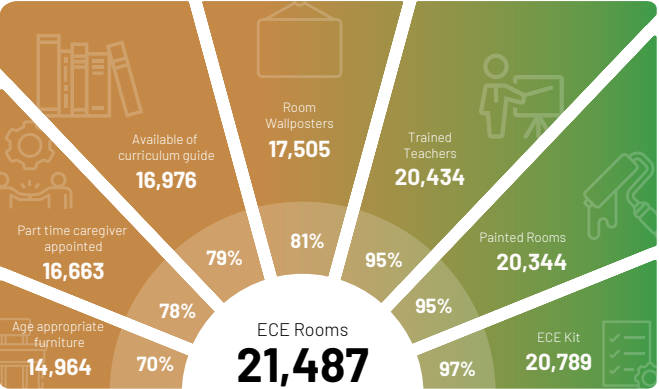

Figure 14: Early Childhood Education (ECE) facilities

The Government of Punjab is diligently focusing on establishing Early Childhood Care Education (ECCE) rooms in public sector schools. This effort includes providing necessary facilities, which has been a priority in several World Bank-funded projects. The number of ECE rooms has steadily risen each year, starting from 2370 in 2016 to 21,487 in 2023.

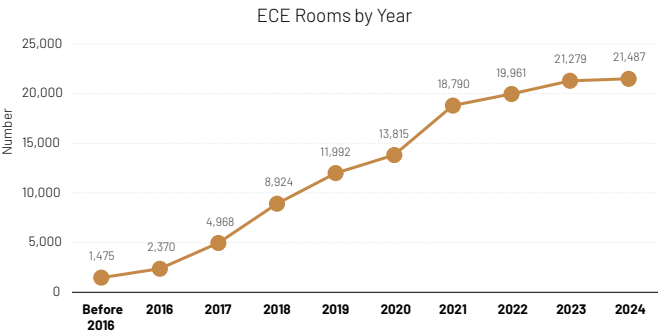

Figure 15: No. ECCE Rooms

v. Laboratories and Educational Support Facilities

Laboratory facilities have been established and equipped in public schools across Punjab to provide students with hands-on experience and foster observation skills, deemed essential for comprehensive understanding and appreciation of scientific concepts. As of the current report, the province boasts an extensive network of laboratory facilities, comprising 1,394 physics labs, 1,328 chemistry labs, 1,318 biology labs, 329 home economics labs, 4,809 combined labs, 7,606 computer labs, 21,446 schools have internet facilities, 3,073 schools have multimedia facilities, 2,181 schools have smart boards, and 6,718 schools have libraries. This robust infrastructure aims to provide a conducive learning environment, empowering students to explore, experiment, and excel in various scientific disciplines. Moreover, this also identifies the schools where additional support is required.

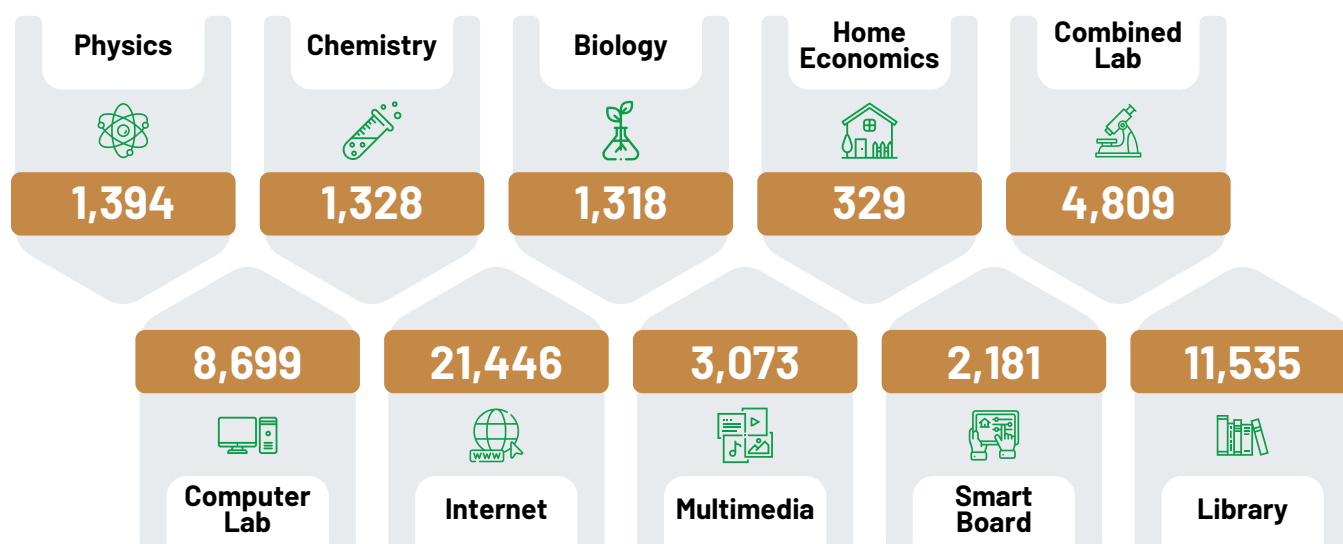

Figure 16: Laboratories and educational support facilities

Stats for furniture, ICT tools, safety features and amenities available in public school of the province, reported by schools' administration is shown in figure below:

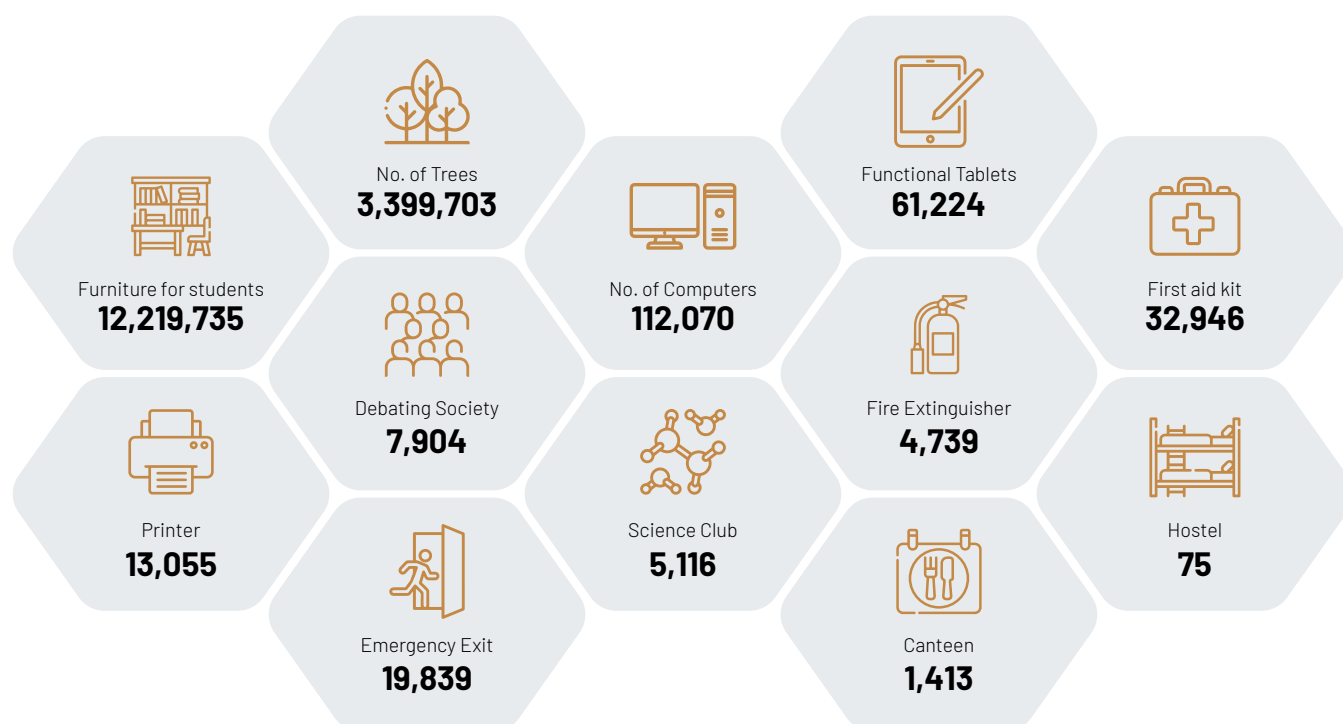

Figure 17: Student and safety facilities

vi. Sports Facilities in Schools

The Government of Punjab prioritizes sports for physical and mental development. Public schools have playgrounds and basic sports equipment, and annual Sports festivals and inter-district competitions are held, with winning teams receiving prizes and certificates. These initiatives promote a culture of physical activity, teamwork, and healthy competition among students, supporting their overall well-being and development. Following are the number of sports facilities available in schools of Punjab.

Figure 18: Sports facilities in schools

vii. Rooms in public schools

The Government of Punjab’s education infrastructure has availability of 366,718 rooms, with 282,745(77%) designated as functional classrooms, whereas remaining are being used for non teaching activities. Primary schools utilize 131,726 rooms, including offices, while the elementary portion has 67,072 classrooms. High schools have the highest number of classrooms, with 143,644 (39% of the total), followed by Higher Secondary Schools with 24,276 rooms (7% of the total). Masjid Maktab schools have the lowest number of rooms, as the government merges them with primary schools to optimize resources.

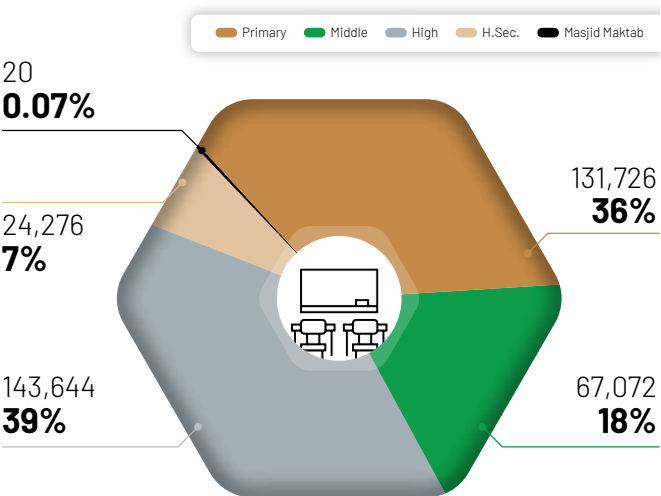

Figure 19: Rooms by school level

viii. Status of classrooms in public schools

According to the ASC 2023-24, Punjab’s public schools have 282,745 functional classrooms, 13,398 dangerous classrooms (increased due to recent rain/flood), and 3,768 under construction. Open-air class sections total 80,601. The data shows a steady annual increase in functional classrooms.

Figure 20: Classrooms in public schools

ix. Trend of functional classrooms in public schools

The School Education Department’s infrastructure development efforts have yielded a steady increase in functional classrooms over the past five years, with a total increase of 12,729 classrooms. The trend shows a consistent rise: 4,224 added in 2020, 4,333 in 2021, 2,510 in 2022, and 1,662 in 2023, indicating a commitment to improving educational infrastructure.

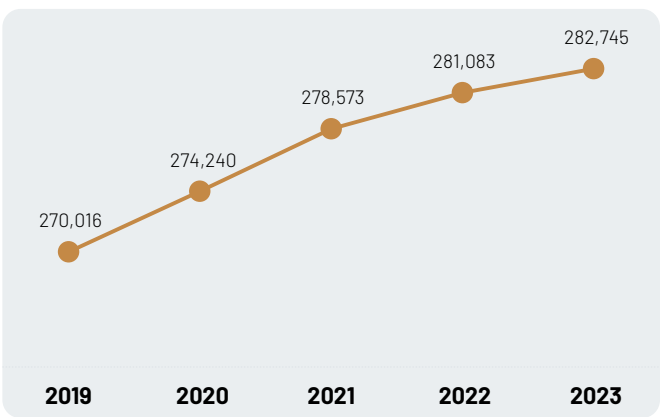

Figure 21: Trend of functional classrooms over the last 5 years

e. Enrollment Profile

The ASC 2023-24 reports a total enrollment of 11,968,153 students in public schools across Punjab, with a notable gender disparity favoring girls. As illustrated in the accompanying graphic, the Primary level (ECCE/Kachi to Grade 5) accounts for the largest share, comprising 61% (7,311,873) of the total enrollment. At the Elementary level (grade 6-8), the enrollment is 25% (2,958,680), at the High level (grade 9-10) it is 13% (1,561,114), and at the Higher Secondary level (grade 11-12) it is 1% (136,486). Notably, girls' enrollment surpasses that of boys at all levels, with a significant lead at the Elementary, High, and Higher Secondary levels.

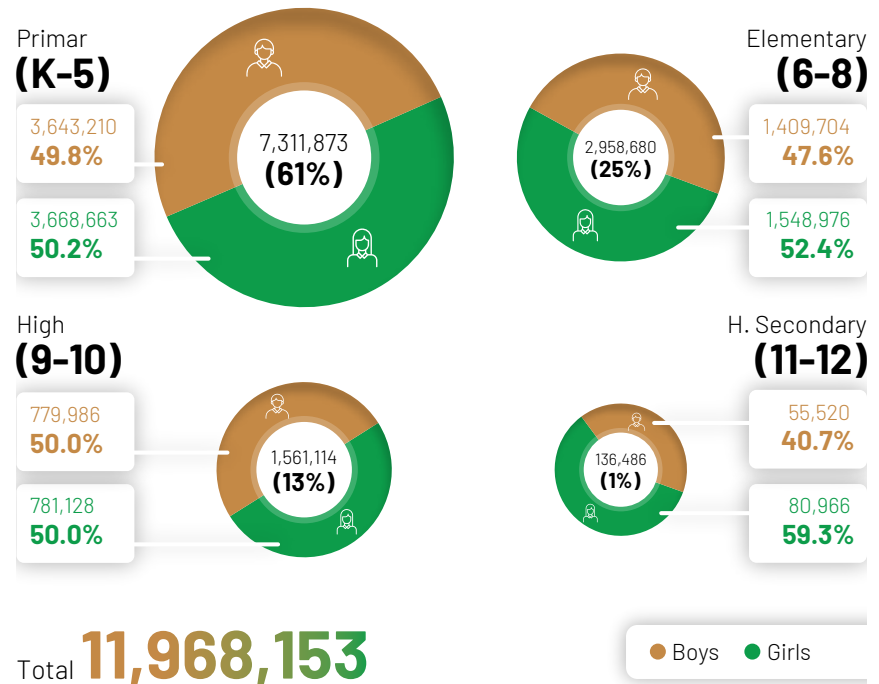

Figure 22: Enrollment by gender and stage

i. Enrollment by Grade and Gender

A total number of 5,888,420 boys and 6,079,733 girls has been reported as enrolled in public schools during the ASC 2023-24.

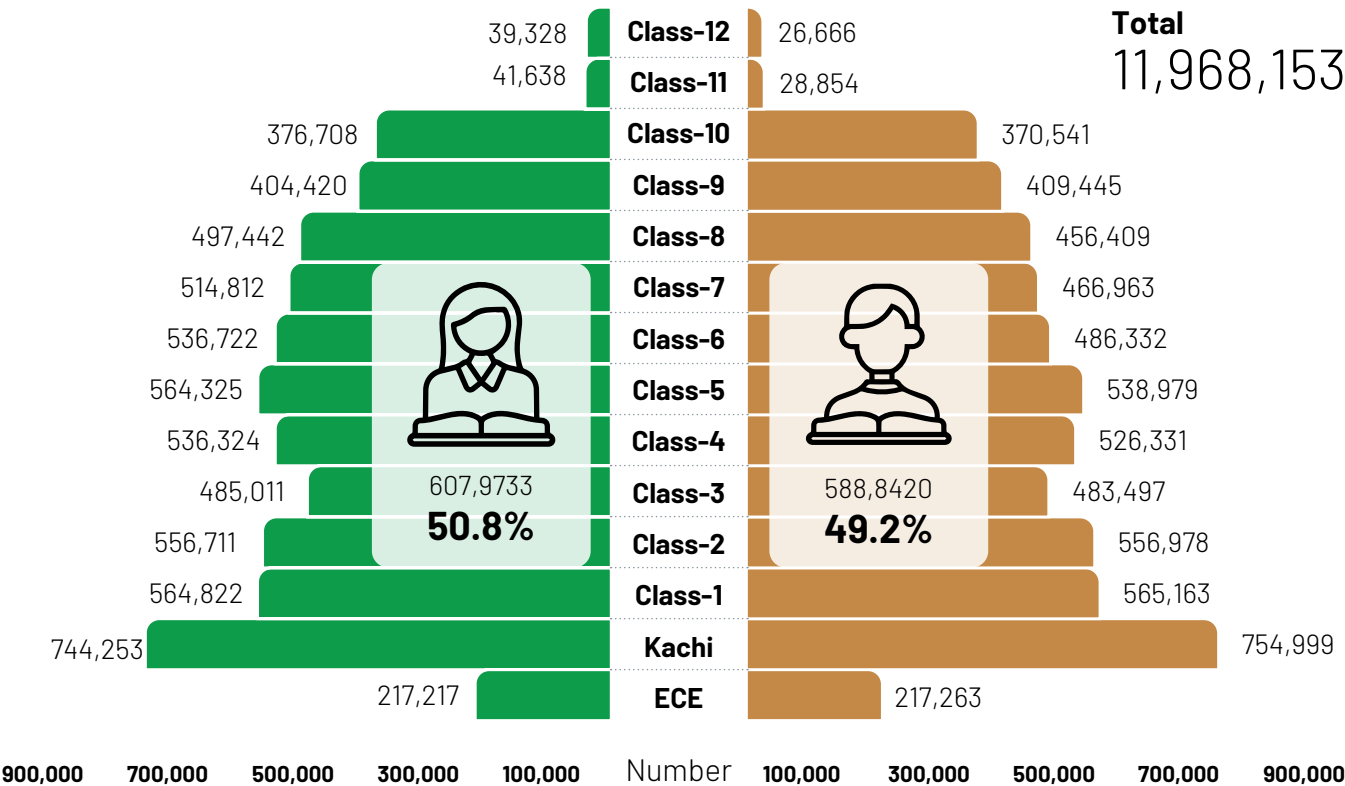

Figure 23: Enrollment by gender and grade

ii. Enrollment by Gender and Area

The enrollment demographics reveal a notable disparity between rural and urban areas, with 75% of total enrollment stemming from rural regions and 25% from urban centers. Furthermore, a gender-based dichotomy is observed, wherein boys' enrollment surpasses that of girls in rural areas, while the opposite trend is seen in urban areas, where girls' enrollment exceeds that of boys. This dichotomy highlights the need for targeted initiatives to address the gender gap in education, particularly in rural areas, to ensure equal access to educational opportunities for all.

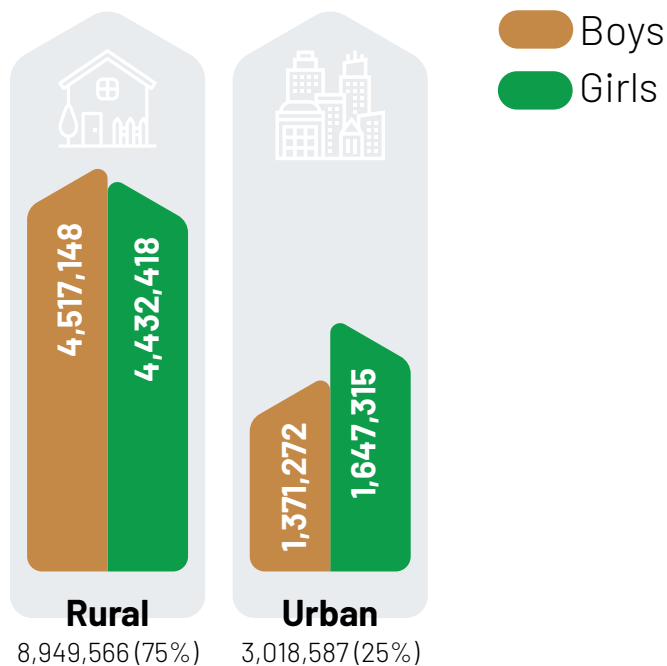

Figure 24: Enrollment by gender and area

iii. Enrolment by gender and medium

The language of instruction for students in the education system is predominantly Urdu, with a significant majority of 9,661,539 students receiving instruction in this language. In contrast, a smaller proportion of 2,306,614 students receive instruction in English language.

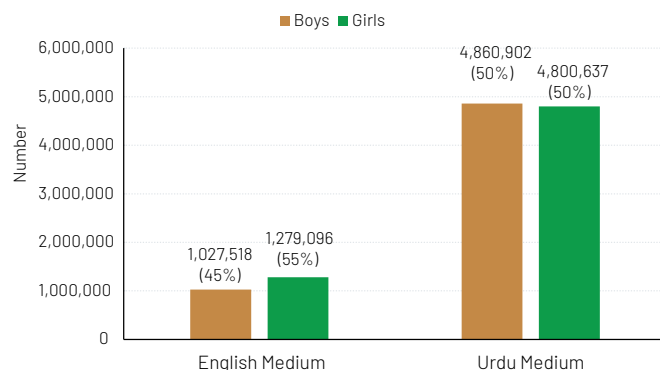

Figure 25: Enrollment by gender and medium

iv. Enrollment in Arts or Science group at Secondary Level

According to the ASC 2023-24, a significant majority of students in public schools have opted for the Science group, with 88% of boys and 64% of girls in Grade 9, and 89% of boys and 68% of girls in Grade 10, choosing this option. In contrast, only 12% of boys and 36% of girls in Grade 9, and 11% of boys and 32% of girls in Grade 10, have enrolled in the Arts group. These statistics indicate a strong preference for Science among students in public schools, with a noticeable gender disparity in the uptake of Arts subjects.

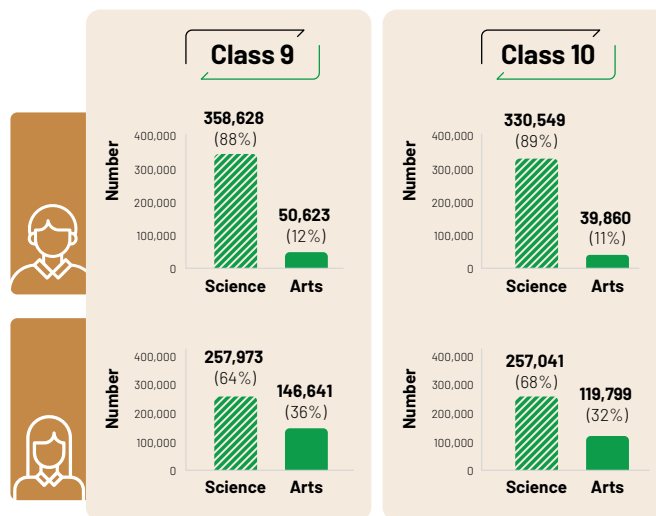

Figure 26: Enrollment by specialization in 9th & 10th grades

v. Specialization-wise Enrolment in Higher Secondary

The higher secondary education landscape reflects a significant emphasis on the Arts specialization, evident in both Grade 11 and Grade 12 cohorts. In Grade 11, out of 53,106 students, 30,911 are pursuing Arts, 9,637 are in ICS, 8,610 are in Pre-Medical, and 1,719 are in Pre-Engineering, with the remaining students distributed across I.Com and other groups. Similarly, in Grade 12, out of 58,819 students, 32,096 are enrolled in Arts, 11,345 are in Pre-Medical, 10,195 are in ICS, and 2,550 are in Pre-Engineering, with others in I.Com and related categories. This trend indicates a notable shift from specialized fields like Pre-Medical and Pre-Engineering to the Arts, possibly influenced by career aspirations and institutional dynamics.

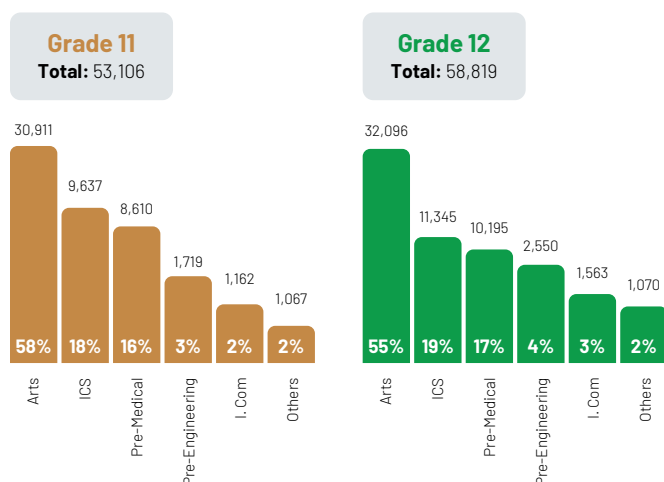

Figure 17: Enrollment by specialization in 11th & 12th grades

vi. Student Teacher Ratios

The student-teacher ratio (STR) is a critical metric that significantly influences student success and engagement, calculated by dividing the total number of enrolled students by the number of teachers employed by the institution. A lower STR is widely recognized as a key factor in enhancing the quality of education, as it enables teachers to provide individualized attention and adapt their teaching methods to meet the specific learning needs of each student. With a smaller student load, teachers can develop meaningful one-on-one mentoring relationships, offer targeted guidance, and focus on the quality of their teaching and assessment practices. Furthermore, a lower STR alleviates the workload of teachers, allowing them to prioritize the quality of their instruction over the quantity of their teaching and grading responsibilities.

According to recent data, the STR for primary, elementary, secondary, and higher secondary schools stands at 37:1, 31:1, 35:1, and 39:1, respectively. Notably, the STR has been steadily increasing over the past few years due to the lack

of new teacher recruitment, underscoring the need for targeted interventions to address this trend and ensure optimal learning environments for students.

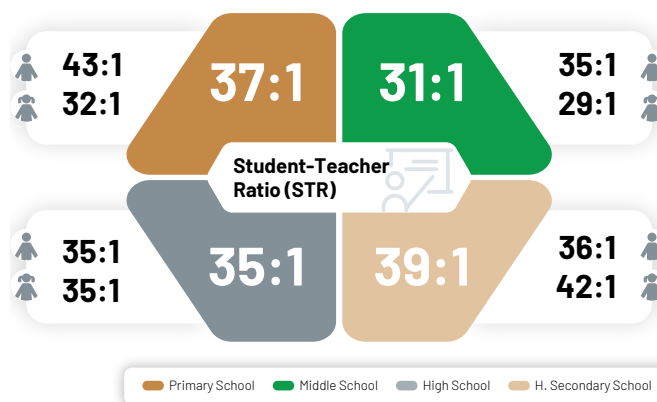

Figure 28: Student-Teacher Ratio

The following graph is showing the STR wise percentage of schools by level. High student to teachers schools can be identified and provided with rectification.

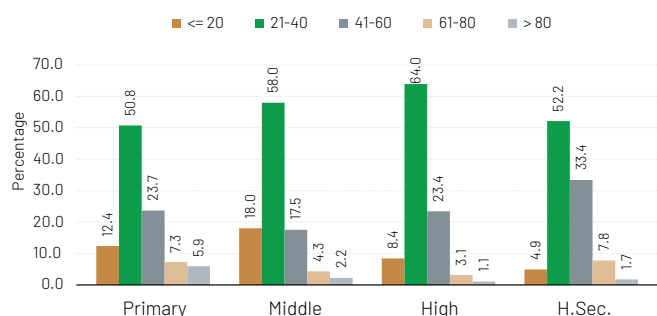

Figure 29: Percentage of schools by STR

vii. Student Classroom Ratios

The student to classroom ratio in Punjab, Pakistan, varies by educational level, with 35 students per classroom in primary schools, 38 in middle schools, 47 in high schools, and 53 in higher secondary schools, indicating a steady increase in the number of students per classroom as the level of education progresses.

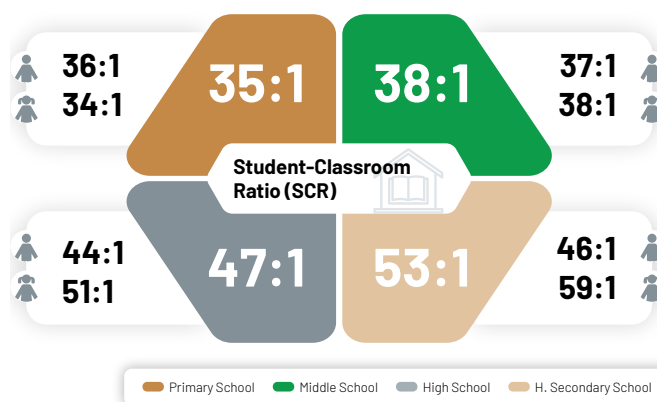

Figure 30: Student to Classroom Ratio

The following graph is showing the Student-Classroom-Ratio (SCR) wise percentage of schools by level.

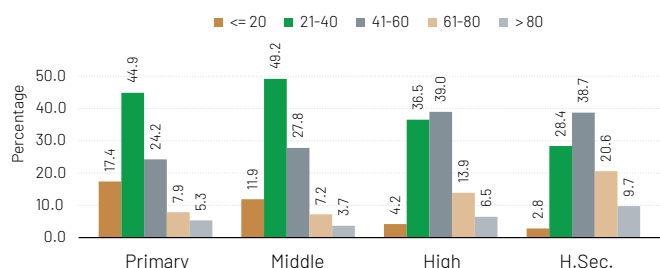

Figure 31: Percentage of schools by SCR

viii. Student Toilet Ratios

The Sustainable development goals (SDGs) are the global roadmap that aim to tackle the challenged face by the world and more sustainable future. The SDG 6 and 4 focus on provision of basic sanitation facilities in schools. Govt. of Punjab along with World Bank is focusing on construction of additional toilet blocks in female schools in addition to repair and maintenance of the existing ones. Student to toilet ratio ranges from 35:1 in primary schools to 65:1 for higher secondary schools. Lower ratio for High Secondary School is owing to recent construction of toilet blocks in these schools. Similarly, Student-classroom ratio varies between 35:1 to 53:1 from primary level to higher secondary level detail may be viewed in graph below.

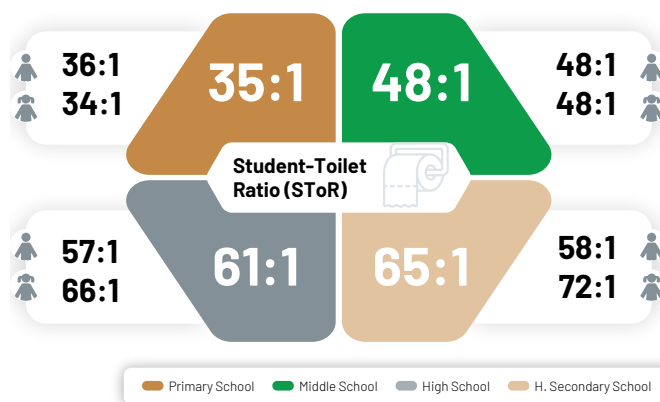

Figure 32: Student to Toilet Ratio

The following graph is showing the SToR wise percentage of schools by level.

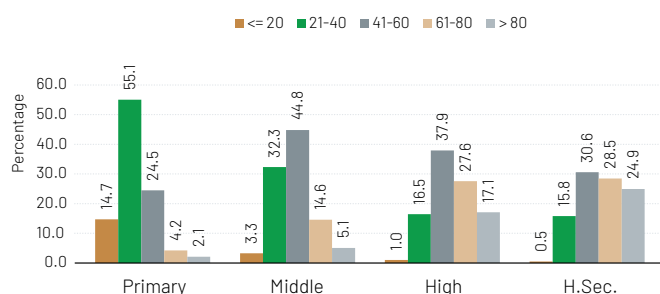

Figure 33: Percentage of schools by SToR

f. Teachers

i. Teachers in public Schools

The School Education Department (SED) has 450,075 sanctioned teaching positions for 48,473 public schools. Currently, 333,039 teachers are employed, filling 74% of the sanctioned posts, while 26% remain vacant. Notably, female teachers occupy 56% (187,232) of the filled posts, while male teachers hold 44% (145,807). To address the uneven distribution of teachers and maintain an optimal Student Teacher Ratio (STR) of 40:1, SED is implementing teachers' rationalization and e-transfer initiatives. Surplus staff is being redeployed to schools with higher student-teacher ratios, ensuring a more equitable allocation of resources and improved learning environments.

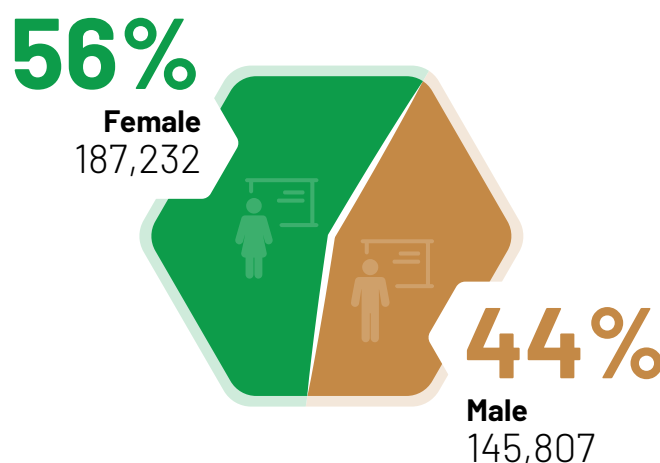

Figure 34: Teachers by gender

Primary School Teachers (PSTs) comprise the largest teaching cohort in Punjab, given the high number of primary schools and enrollment. To address this, primary schools have been prioritized under various initiatives such as the Punjab Human Capital Investment Project (PHCIP) and the TALEEM project. Moreover, refresher and training programs for primary school teachers are being implemented to emphasize the significance of early childhood education.

Out of the total sanctioned positions for PSTs, which stands at 251,627, 71% (178,737) are currently filled, while 29% remain vacant. The remaining teaching cadres include Elementary School Teachers (ESTs), Secondary School Teachers (SSTs), Subject Specialists (SS), Senior Subject Specialists (SSSs), Headmasters/Headmistresses (HMs), Principals, and Imam/Qaris. A detailed breakdown of sanctioned, filled, and vacant positions by post and gender is provided below.

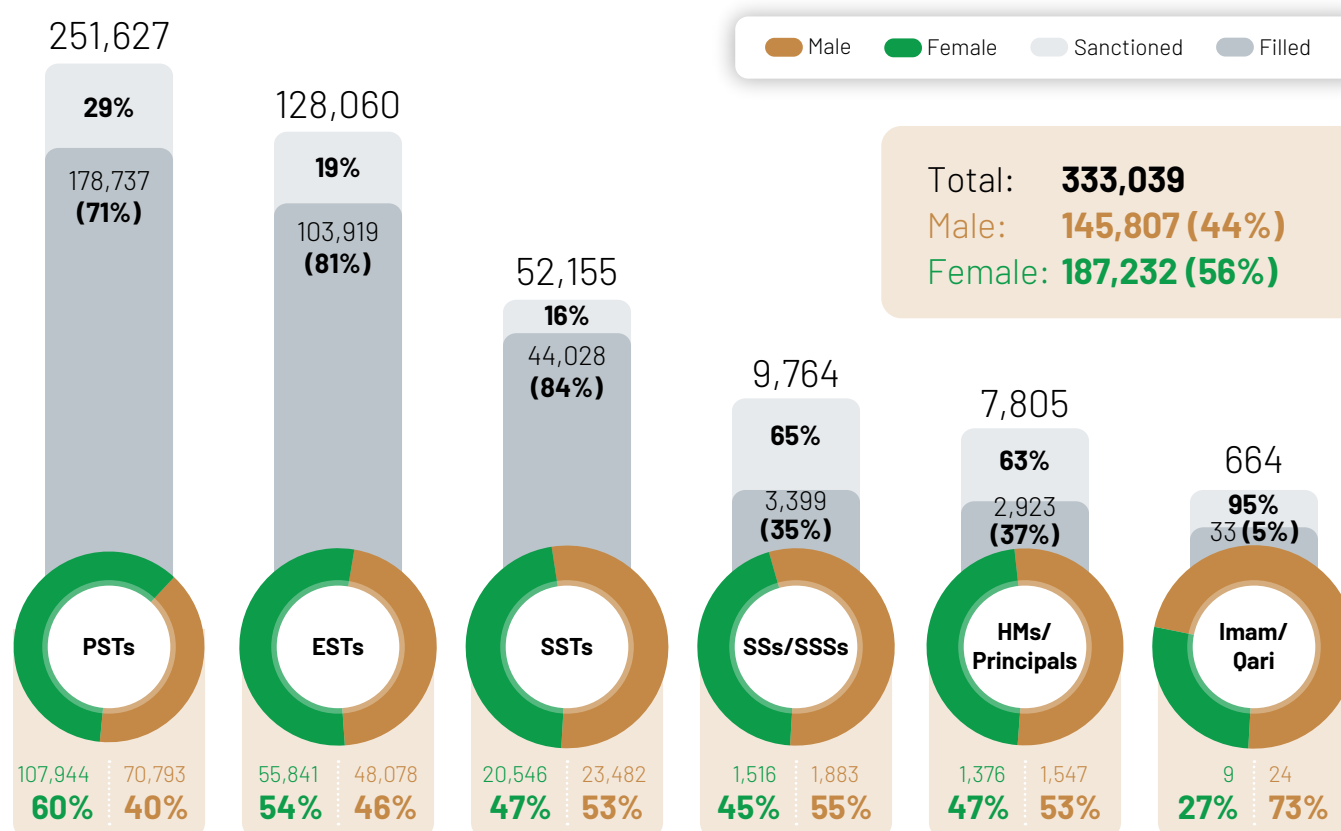

Figure 35: Sanctioned and filled teaching posts by gender and qualification

ii. Teachers by educational qualification

The Government of Punjab is dedicated to recruiting highly qualified and professionally competent individuals for public schools in the province. To ensure the appointment of qualified teachers, the School Education Department has engaged the services of an external testing agency and implemented rigorous selection criteria in its recruitment policies. As a result, a significant majority of teachers appointed in public schools possess advanced educational qualifications. Specifically, over 86% of male teachers and 64% of female teachers hold a Master's degree or have completed 16 years of education. Additionally, 22% of male teachers and 18% of female teachers hold a Bachelor's degree (14 years of education), while 12% of male teachers and 10% of female teachers have completed 18 years of education.

Notably, a significant number of Ph.D. scholars have also been appointed in public schools, with 527 male and 225 female Ph.D. holders serving in this capacity. In contrast, the number of teachers with lower qualifications, such as Matric and FA/F.Sc levels, is relatively low, ranging from 3.3% to 5.5%. A graphical illustration of these statistics is provided for further clarity.

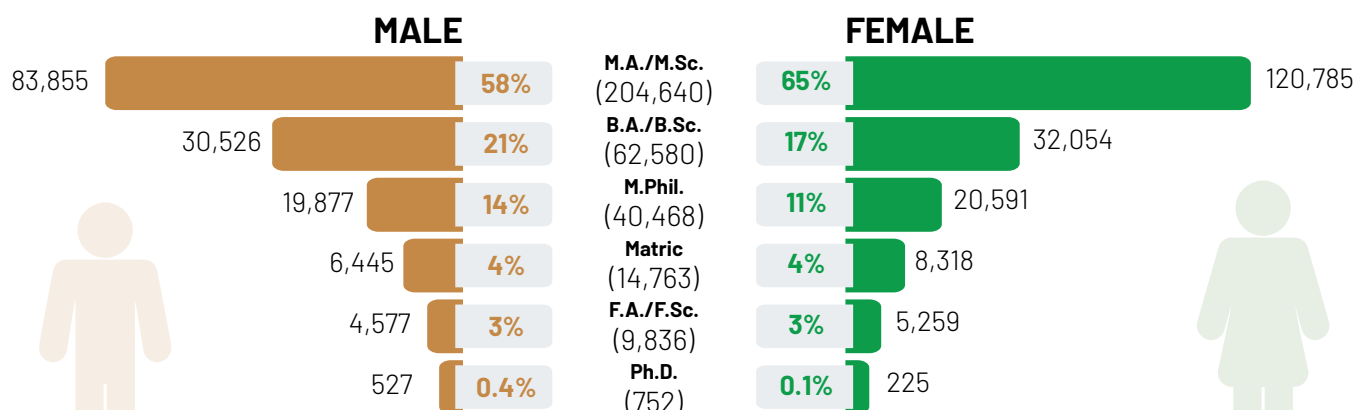

Figure 36: Teachers by gender and academic qualification

iii. Teachers by professional qualification

In recognition of the importance of professional qualifications, the recruitment process for teachers assigns significant weightage to these credentials. The range of professional courses includes M.Ed., MS.Ed., B.Ed., BS.Ed., CT, PTC, JV, and others. A detailed breakdown of teachers by course and gender is provided in the accompanying graphic, highlighting the diverse range of professional qualifications among the teaching workforce.

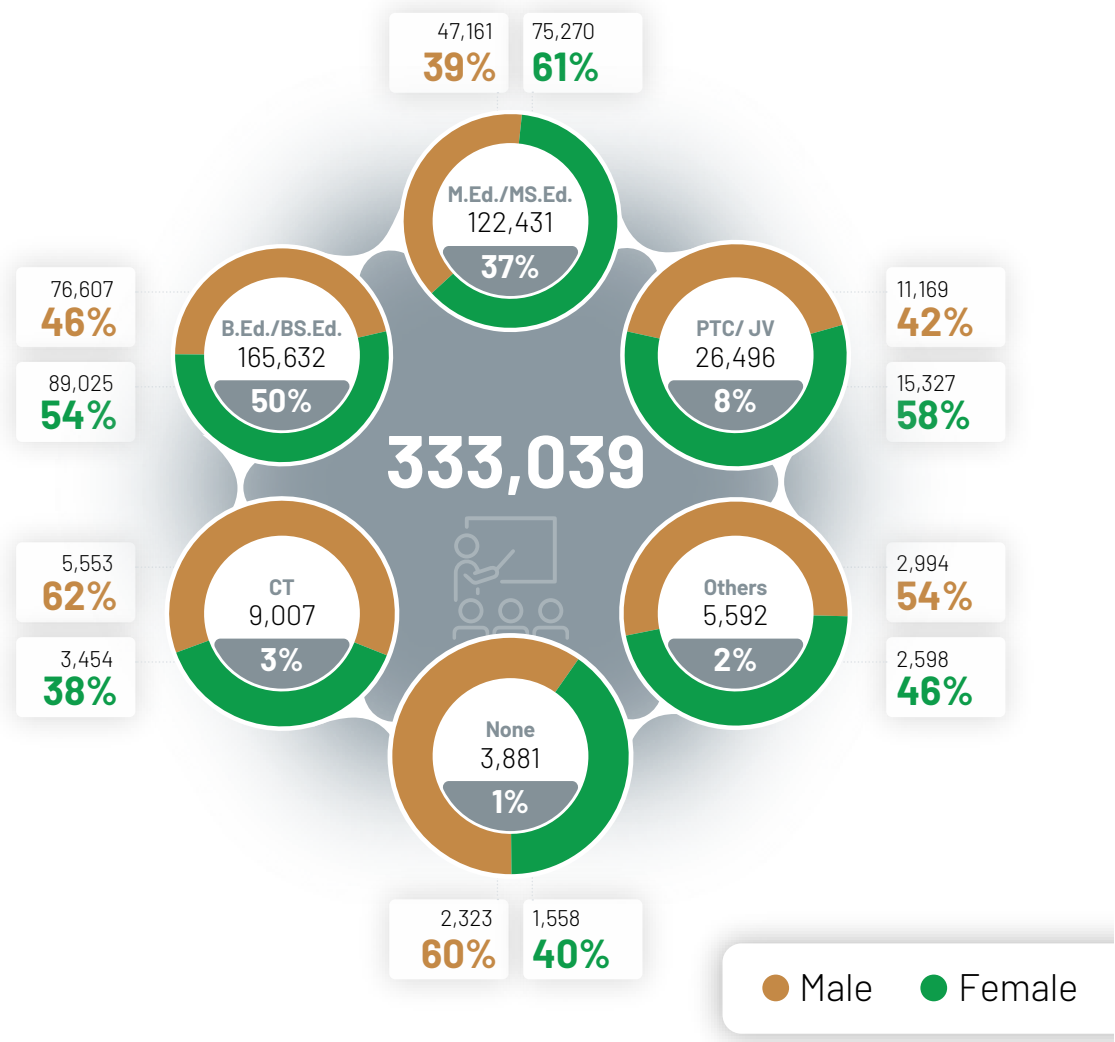

Figure 37: Teachers by gender and professional qualification

g. District-wise Statistics

This section provides an overview of the district-wise distribution of public sector schools, enrollment, and teachers in Punjab. The data offers a comprehensive snapshot of the educational landscape across various districts in the province, highlighting the number of public schools, student enrollment, and teacher strength in each district. This information enables a better understanding of the regional disparities and concentration of educational resources, facilitating informed decision-making and strategic planning to address the needs of different districts.

i. Schools

The distribution of schools across various districts exhibits significant variation, which is directly correlated with the population density, size, and geographical extent of each district. Consequently, the number of public sector schools, enrollment, and teacher strength differs substantially from one district to another.

In order to provide adequate educational facilities to the population in Rahim Yar Khan, the School Education Department (SED) has established a total of 2,775 schools, representing the highest number of operational institutions in any district. Faisalabad follows closely, with the second-highest number of schools. In contrast, Chiniot has the lowest number of schools, with a total of 698 operational institutions, due to its relatively low population density.

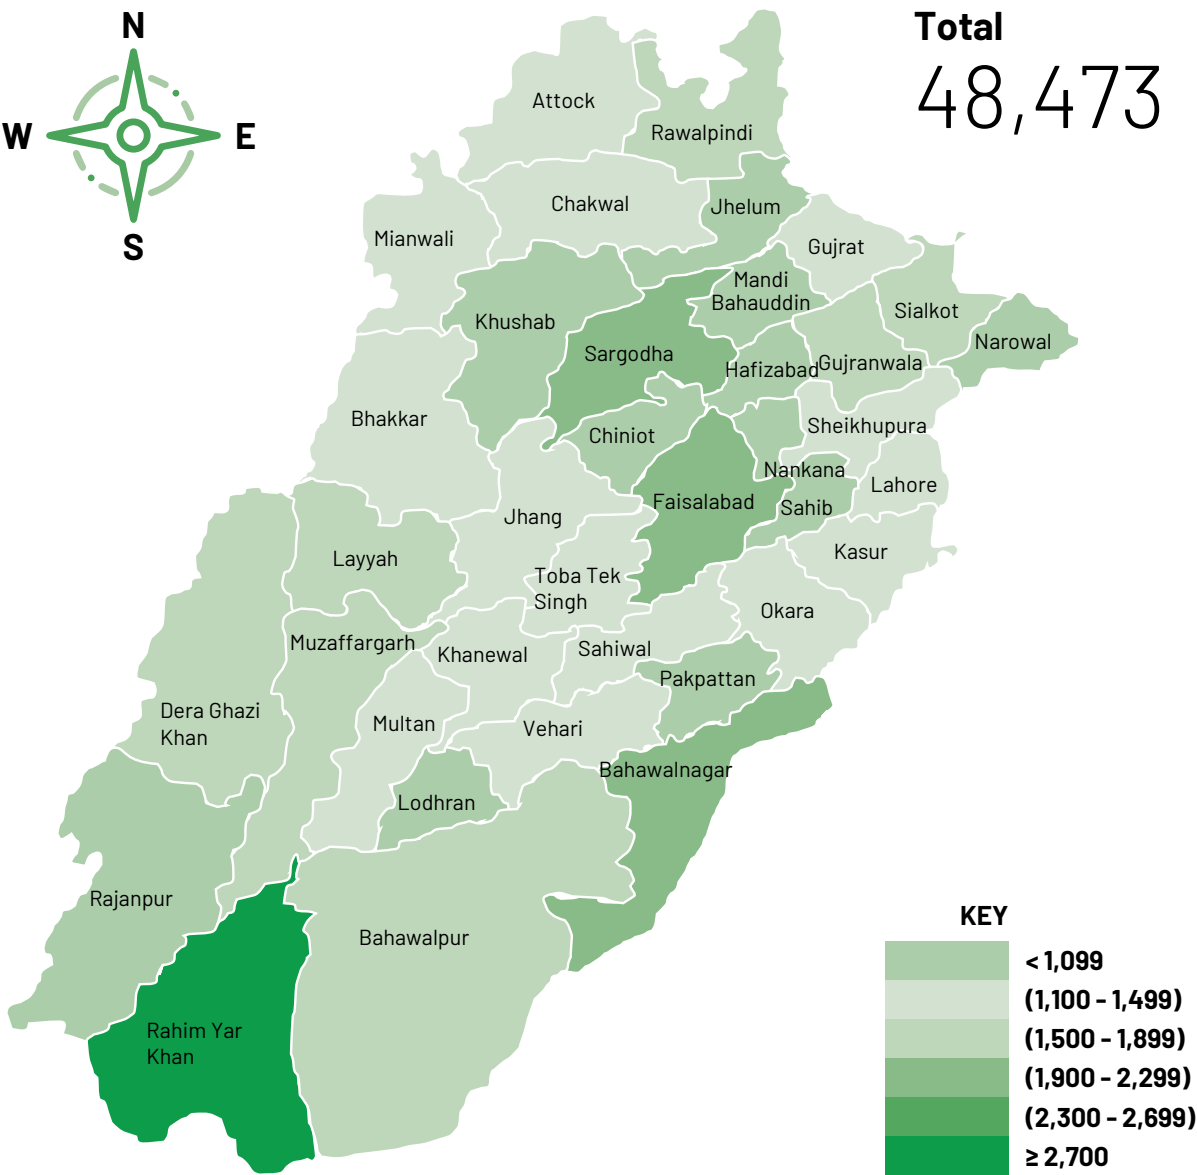

Figure 38: District-wise number of schools

The following table provides a detailed breakdown of the number of schools in each district, categorized by level (primary, elementary, secondary, and higher secondary) and gender (boys & girls). This table offers a comprehensive overview of the educational infrastructure in each district, highlighting the distribution of schools across different levels and gender categories.

District	Primary		Middle		High		H.Sec.		Masjid Maktab Male	Grand Total

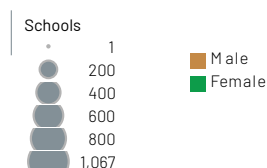

Figure 39: District, gender and level-wise number of schools

ii. Enrollment

The total enrollment count across the 36 districts of Punjab stands at 11,968,153. As illustrated in the figure below, the highest enrollment count is recorded in district Faisalabad, with a total of 861,616 students, followed closely by district Lahore, with an enrollment count of 651,136. These figures indicate the significant demand for education in these districts, which is likely driven by their large population sizes and urbanization.

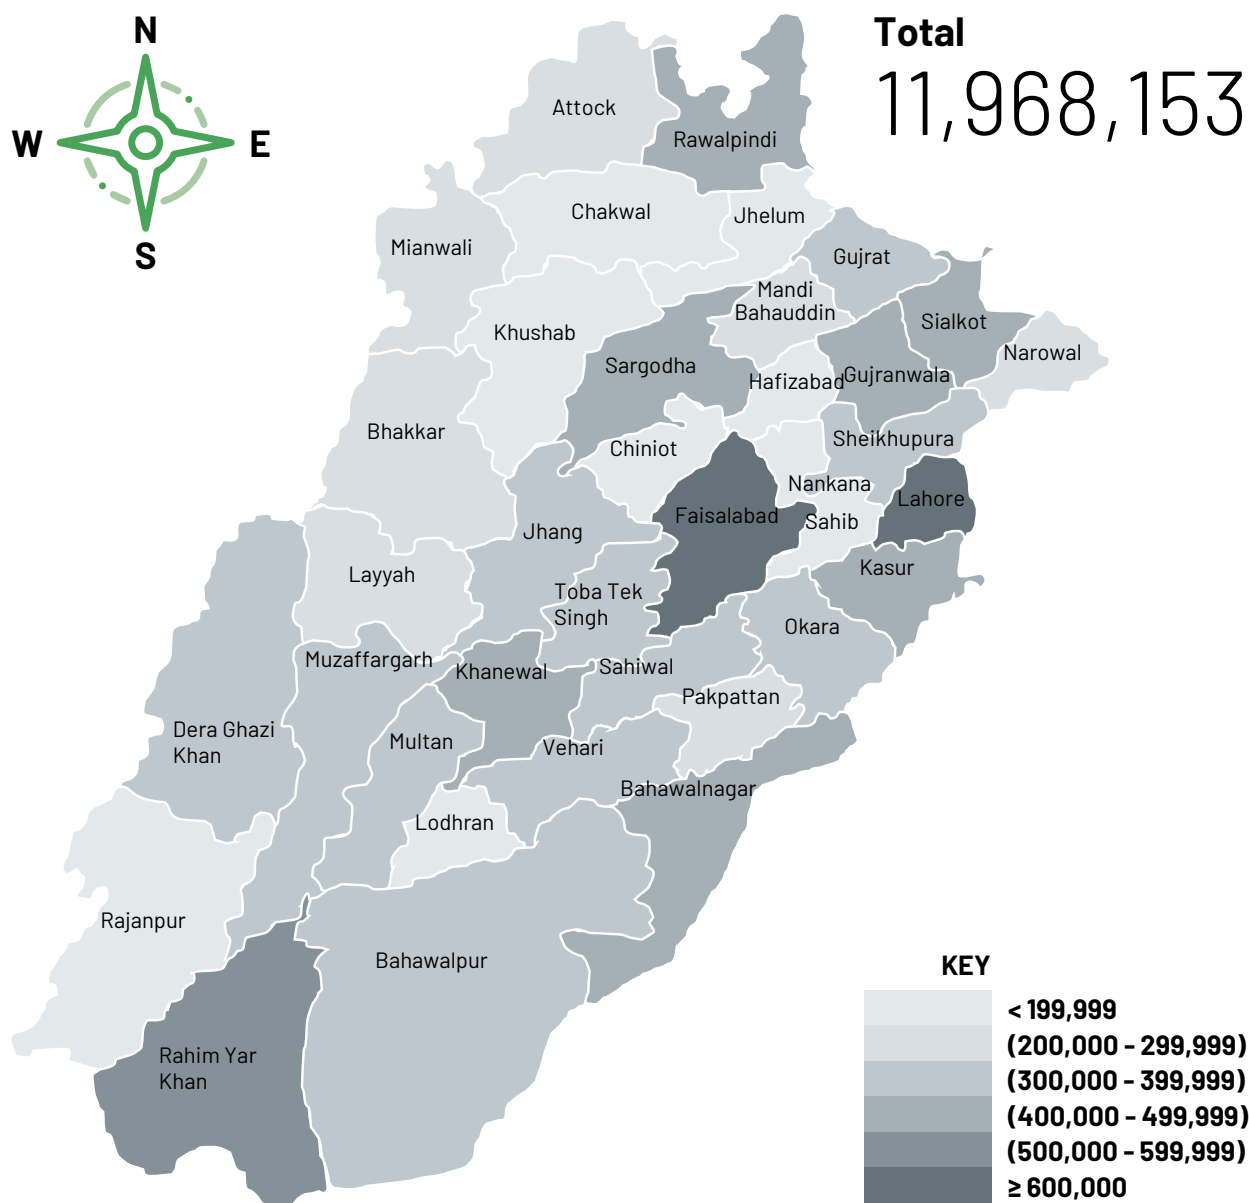

Figure 40: District-wise student enrollment

The total enrollment in all public schools in Punjab stands at 11,968,153, comprising 6,079,733 girls and 5,888,420 boys. Notably, urban districts such as Lahore, Faisalabad, Gujranwala, Sialkot, and Rawalpindi exhibit a higher proportion of girls enrolled in public schools, whereas rural districts like Rajanpur, Lodhran, and Chiniot have a greater number of boys enrolled. This disparity highlights the varying educational dynamics and gender demographics across urban and rural areas in Punjab.

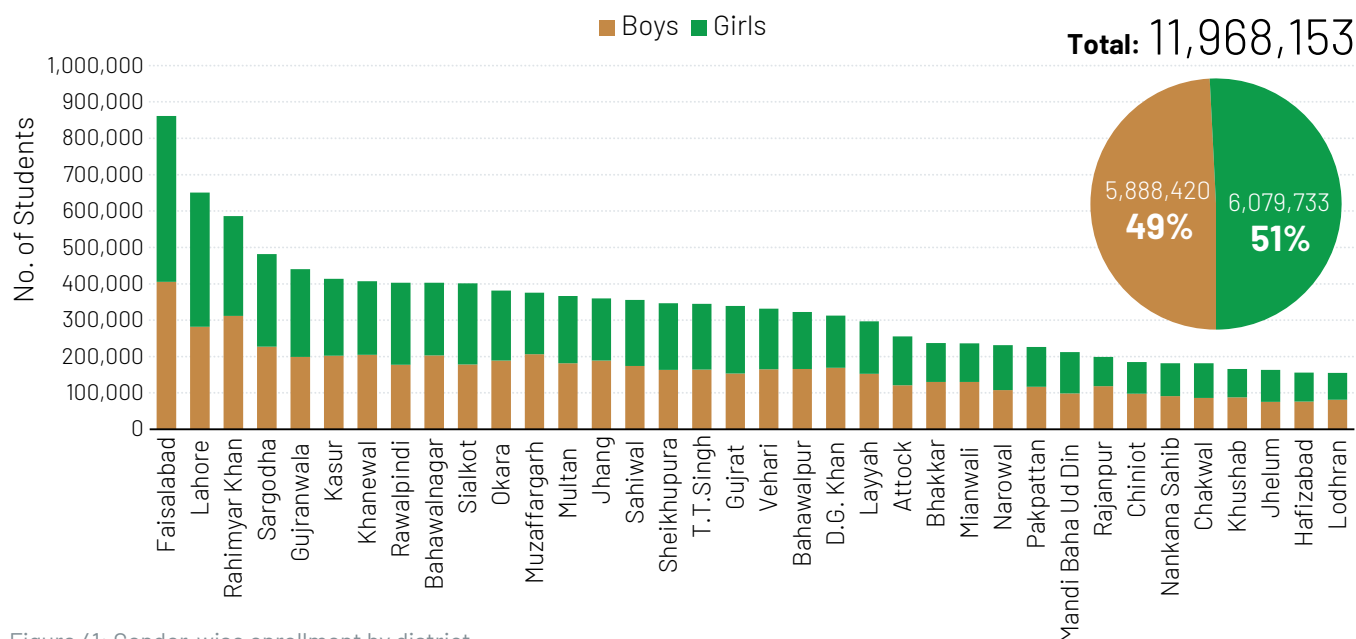

Figure 41: Gender-wise enrollment by district

The following table presents a detailed breakdown of enrollment in public schools across the 36 districts of Punjab, categorized by district, level (primary, elementary, secondary, and higher secondary), and gender (boys and girls). This table provides a comprehensive overview of the enrollment patterns in each district, highlighting the distribution of students across different levels and gender categories.

District	Primary		Elementary		Secondary		Higher Secondary		Grand Total
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls

Figure 42: District, level and gender-wise enrollment

iii. Teachers and Non-Teaching Staff

The teaching cadre is the backbone of public schools, and in Punjab, a total of 333,039 teachers are currently posted, which represents only 74% of the sanctioned strength. This highlights a significant shortage of teaching staff in the province.

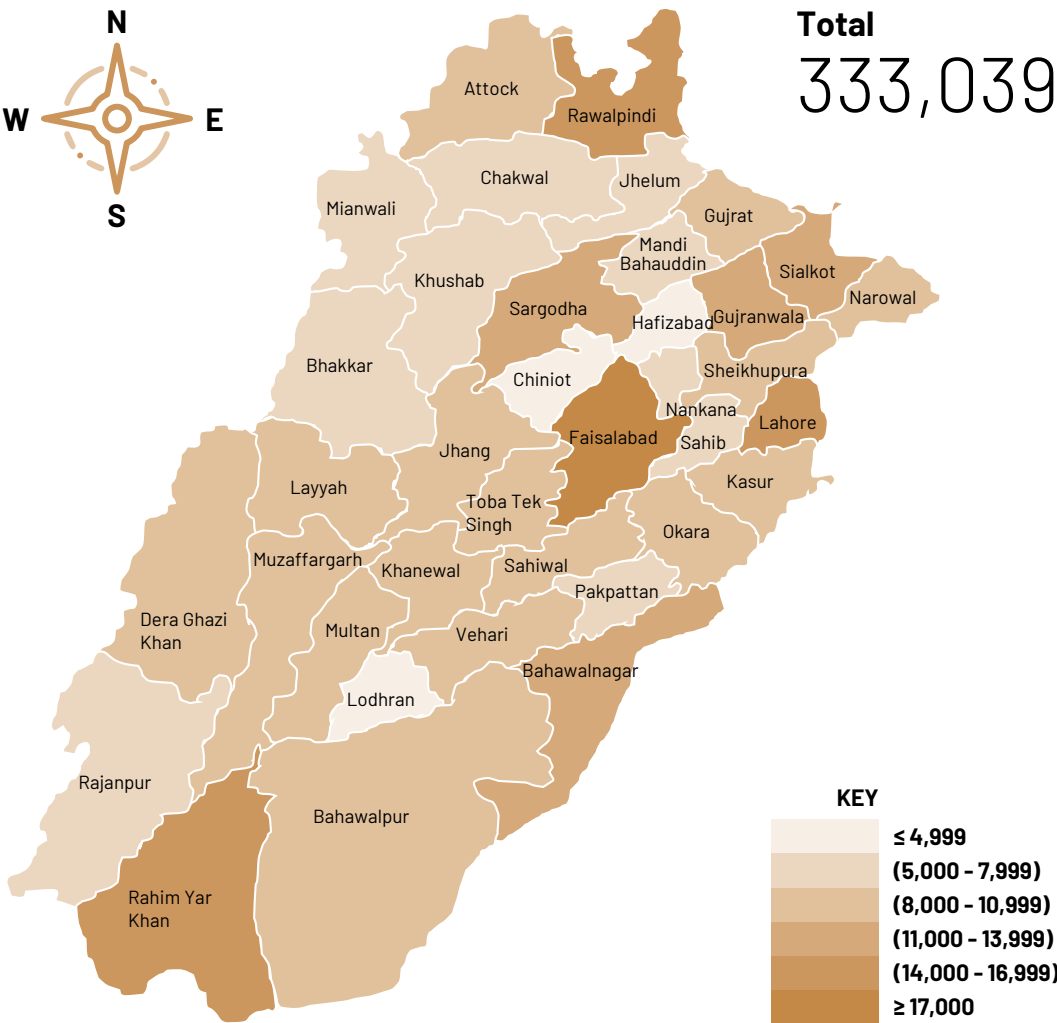

Figure 43: District-wise number of teachers

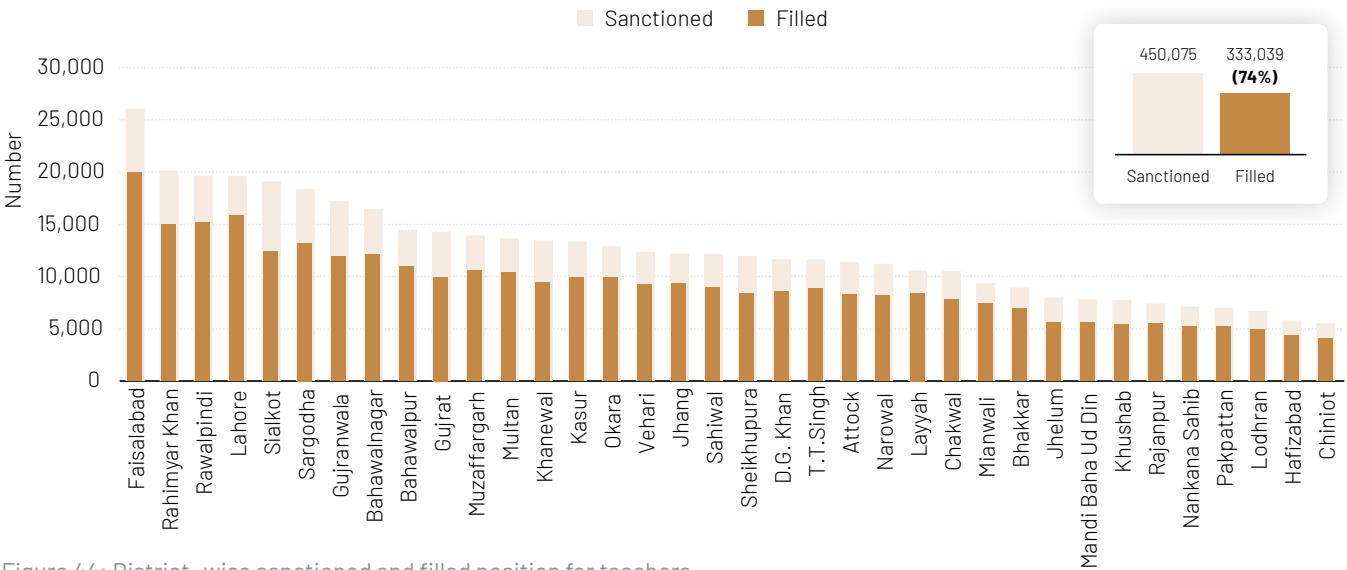

Figure 44: District -wise sanctioned and filled position for teachers

The following table presents a detailed breakdown of the teaching staff in Punjab, categorized by district, gender, and level (primary, elementary, secondary, and higher secondary). This table provides a comprehensive overview of the teaching workforce in each district, highlighting the distribution of teachers across different levels and gender categories.

District	Primary		Middle		High		H.Sec.		Masjid Maktab	Grand Total
	Male	Female	Male	Female	Male	Female	Male	Female

Figure 45: District, level and gender wise teachers

In Punjab, there are a total of 102,014 sanctioned positions for non-teaching staff, of which 69,132 (or 68% of the total sanctioned strength) are currently filled. The distribution of filled non-teaching posts varies across districts, with Rahimyar Khan having the highest number of filled positions, and Chiniot having the lowest count.

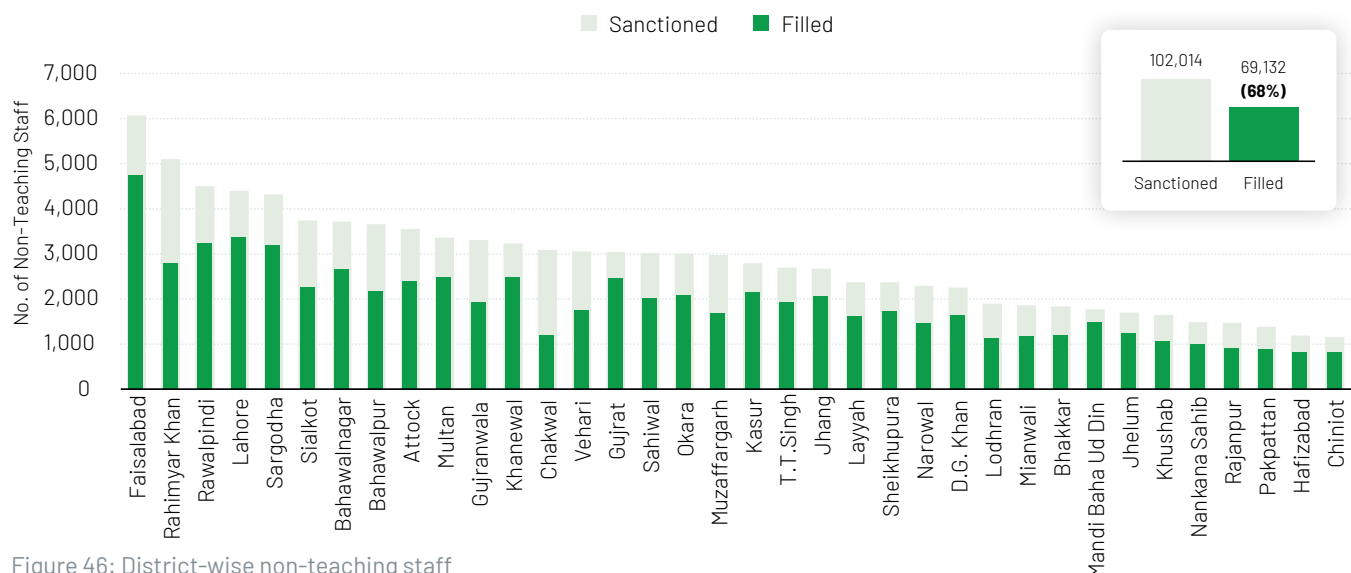

Figure 46: District-wise non-teaching staff

h. Trends in Public Sector Education

Trend analysis provides a comprehensive overview of developments over time, enabling the identification of patterns and predictions for future trends. By comparing data with previous and corresponding years, this analysis facilitates informed decision-making. The ASC focuses on key indicators such as the number of schools, students, and teachers. This section presents a five-year trend analysis of these crucial indicators, offering insights into the progress and changes in the education sector over time.

i. Schools

Overall, total number of schools is following a steady trend with slight increase each year. In 2019, there were a total number of 48,207 school with break of 22,905 for boys and 25,302 for girls. While, the count is now increased to 48,473 school with 22,935 boys and 25,538 girls schools. It is worth noticing that number of male schools have been increased due to de-consolidation/de-merge of schools.

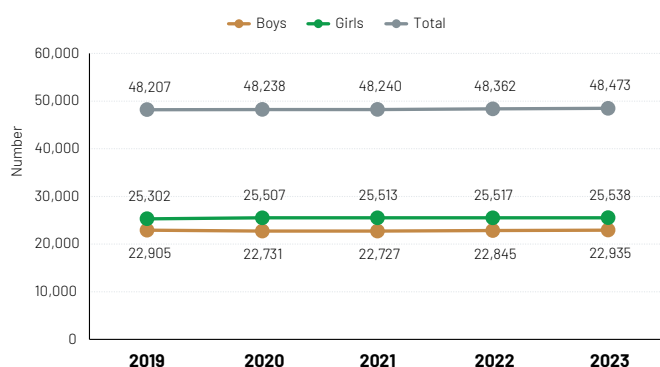

Figure 47: Number of schools by gender, 5-year trend

The following graph illustrates the trends in the number of schools (in thousands) from before 1947 to 2023. The data is segmented into multiple periods, highlighting the growth over time. The blue line represents male schools, the orange line represents female schools, and the gray line represents the total no. of SED schools.

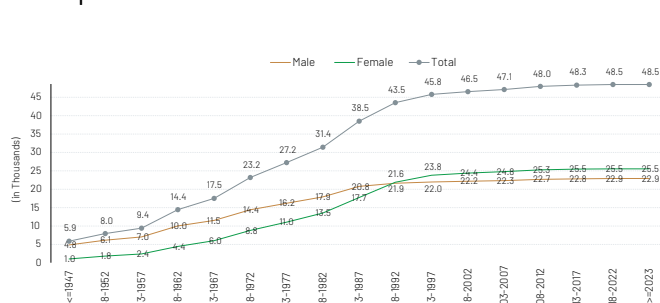

Figure 48: Growth of schools over time

Both the male and female schools show consistent growth over the periods, with male schools generally outnumbering female schools.

ii. Enrollment

On comparing the previous five years (2019-2023) class wise enrollment count of boys, it is observed that there is profound depression between 2019 and 2020. This enrollment drop has been attributed to Covid-19 pandemic. In 2021, there is significant increase in enrollment as compare to previous year 2020, owing to massive enrollment campaign by School Education Department. However, during the 2022 enrollment of boys tapered down owing to natural calamity of heavy rains and flood in Punjab. In the corresponding year 2023, this tapering down trend has been slightly lowered.

Apparently, Gender Parity Index seems favorable for girls which can be viewed otherwise as higher drop out in boys. Total enrollment figure for Punjab is 11, 968, 153.

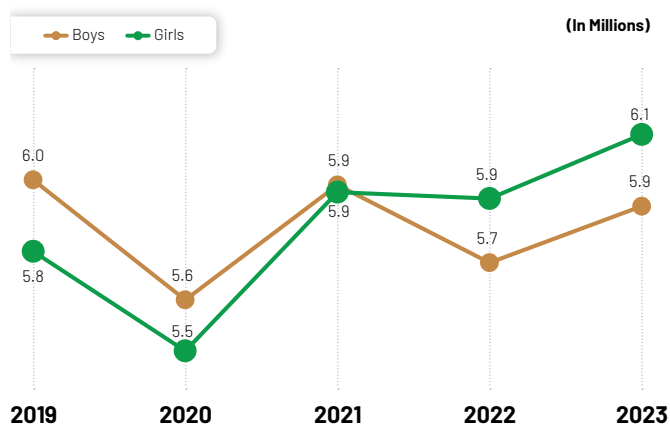

Figure 49: Enrollment by gender, 5-year trend

The following graph illustrates the trends in school enrollment (including PEIMA) from the academic years 2003-04 to 2023-24. The enrollment is measured in millions, boys outnumbering girls till 2019-20. Due to COVID-19 in 2019-20, there are more girls than boys in public schools.

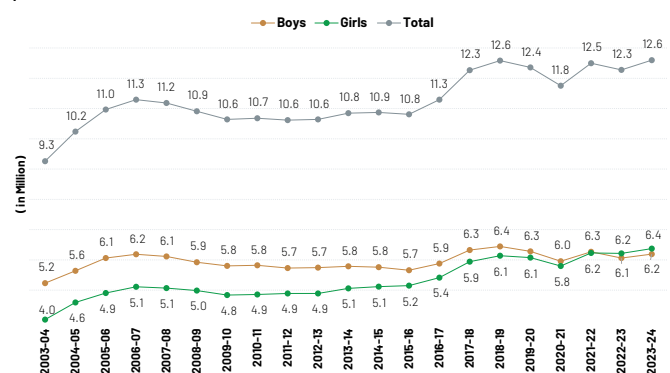

Figure 50: Trend of enrollment by gender since 2003-04

iii. Retention trend

The graph presents gender wise retention rates for three different grade ranges (Grade 1 to Grade 5, Grade 6 to Grade 8, and Grade 9 to Grade 10) over the years 2019 to 2023. Each chart shows the percentage of students retained within the specified grade ranges.

The retention rates for primary, elementary & secondary stages show an overall upward trend for Girls from 2019 to 2023.

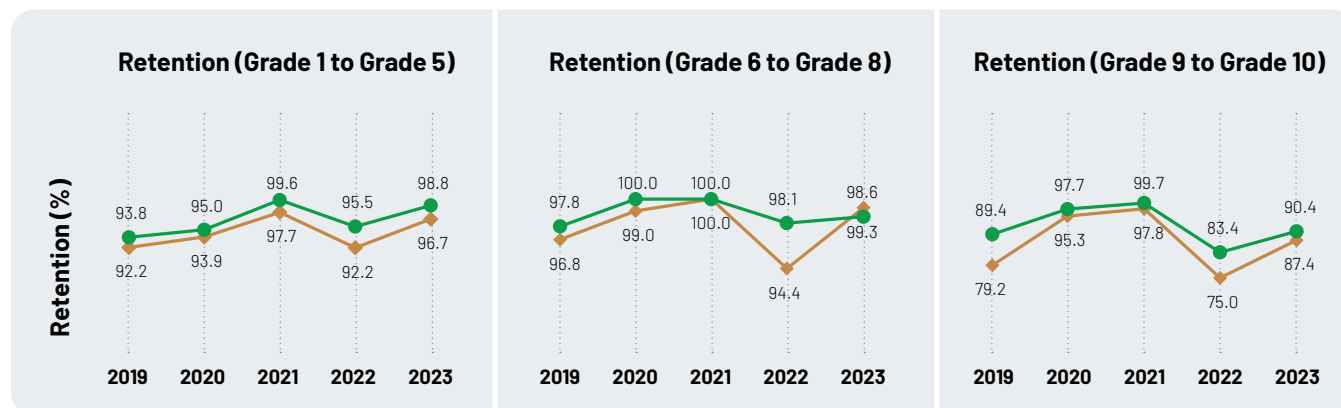

Figure 51: Stage & gender wise retention trend

Boys Girls

Calculation Methodology:

Primary (Grade 1 to Grade 5) = (Enrollment of grade 2 to grade 5 of current year) / (Enrollment of grade 1 to grade 4 of previous year) * 100 – capped on 100% maximum

Elementary (Grade 6 to Grade 8) = (Enrollment of grade 7 to grade 8 of current year) / (Enrollment of grade 6 to grade 7 of previous year) * 100 – capped on 100% maximum

Secondary (Grade 9 to Grade 10) = (Enrollment of grade 10 of current year) / (Enrollment of grade 9 of previous year) * 100 – capped on 100% maximum

iv. Transition trend

The transition rate from Kachi (K) to Class 1 has shown a significant increase, rising from 72.1% in 2019 to 83.3% in 2023. This upward trend indicates progress in early childhood education.

In contrast, the transition rate from Class 8 to Class 9 has declined for both boys and girls. For boys, the transition rate decreased from 100% in 2019 to 95.1% in 2023, while for girls, it dropped from 100% in 2019 to 88% in 2023. These decreases warrant attention to address the challenges hindering students' progression to higher grades.

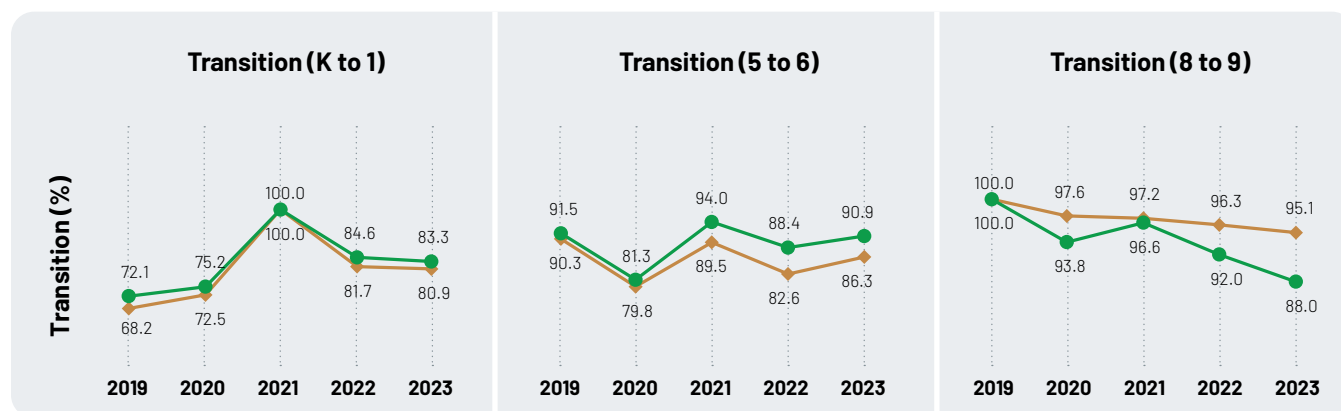

Figure 52: Gender wise transition from terminal grades

Boys Girls

Calculation Methodology:

Transition (K to 1) = (Enrollment of grade 1 of current year) / (Enrollment of Katchi of previous year) * 100 – capped on 100% maximum

Transition (5 to 6) = (Enrollment of grade 6 of current year) / (Enrollment of grade 5 of previous year) * 100 – capped on 100% maximum

Transition (8 to 9) = (Enrollment of grade 10 of current year) / (Enrollment of grade 9 of previous year) * 100 – capped on 100% maximum

On comparing the previous five years (2019-2023) class wise enrollment, it is observed that there is slight fall in 2020. This enrollment drop has been attributed to Covid-19 pandemic. In 2021, there is substantial increase in enrollment as compared to previous year because of enrollment campaigns. Enrollment count is down again in 2022 due to rains/ floods in Punjab.

Figure 53: Enrollment by class for boys, 5-year trend

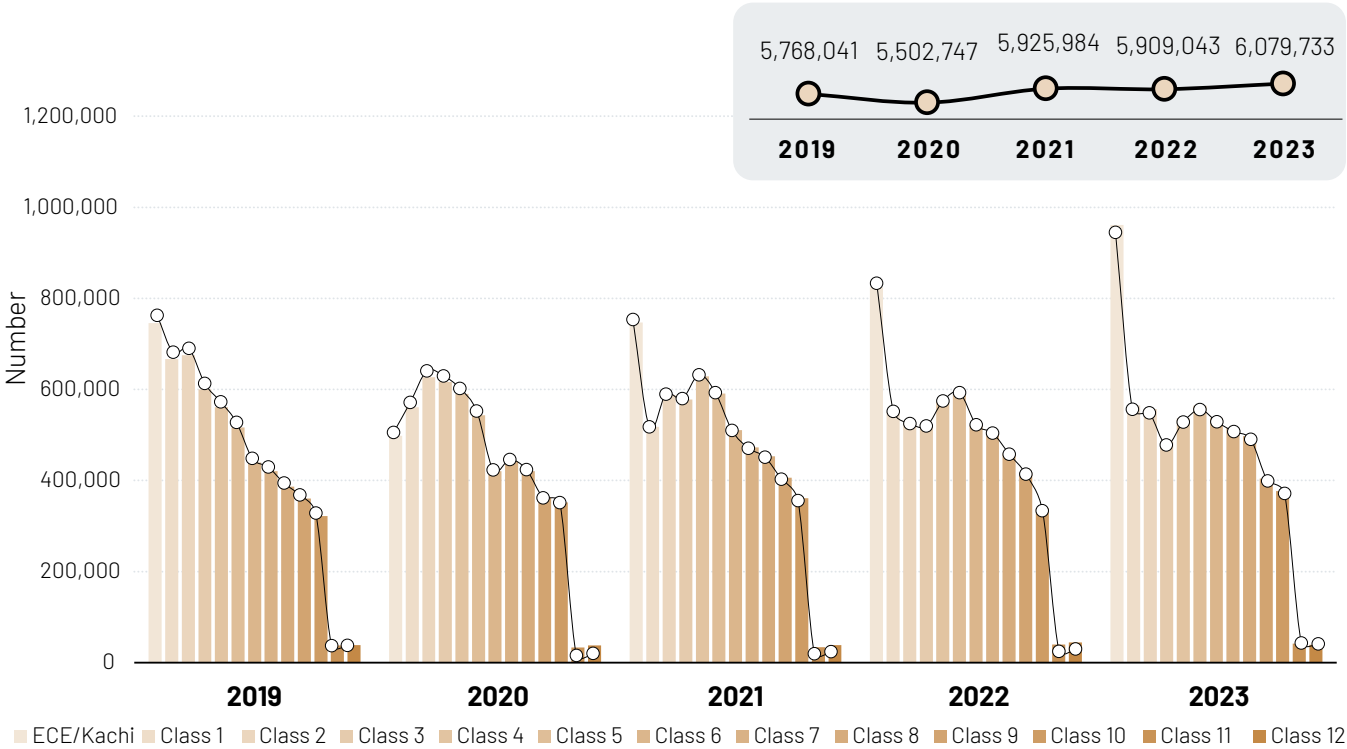

Figure 54: Enrollment by class for girls, 5-year trend

v. Teachers

According to the latest figures reported through the ASC 2023-24, the total number of teachers currently available in public schools stands at 333,039, representing a significant decline from the 2018 count of 391,799. An analysis of the teacher count over the past five years (2019-2023) reveals a consistent decrease in the number of appointed teachers in Punjab, with an average annual decrease of 12,000 teachers since 2018. This downward trend is attributed to the ban on recruitment by the Government of Punjab over the past five years, resulting in a high Student-Teacher Ratio (STR) in schools.

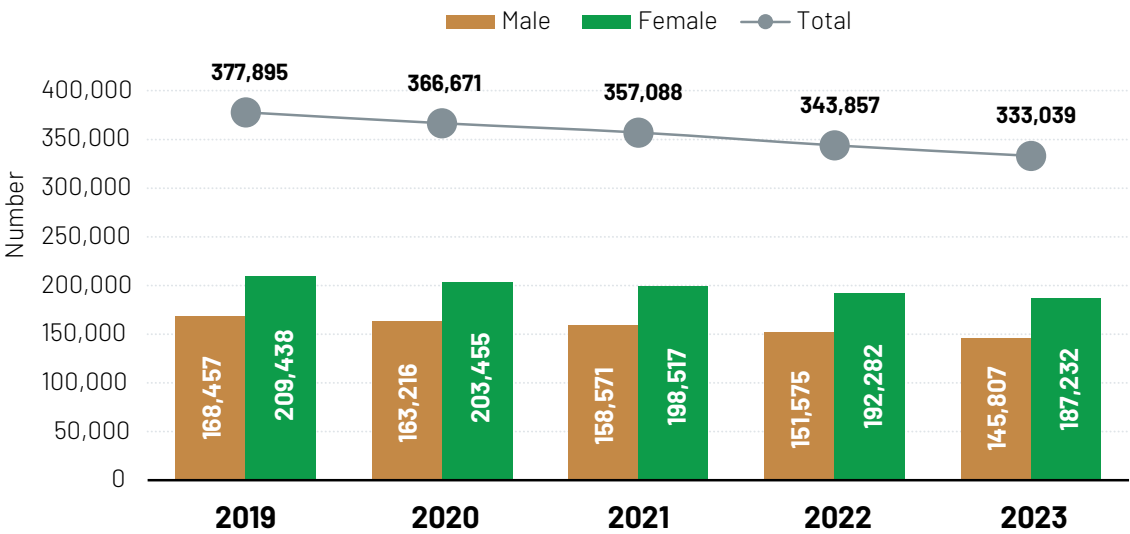

Figure 55: Number of teachers by gender, 5-year trend

The following graphic illustrates the breakdown of teachers available in Punjab across various educational levels, including Primary, Middle, High, Higher Secondary, and Special Mosque schools, for the period spanning from 2019 to 2023. This visual representation provides a comprehensive overview of the teacher distribution across different school types, facilitating a better understanding of the educational landscape in Punjab over the past five years.

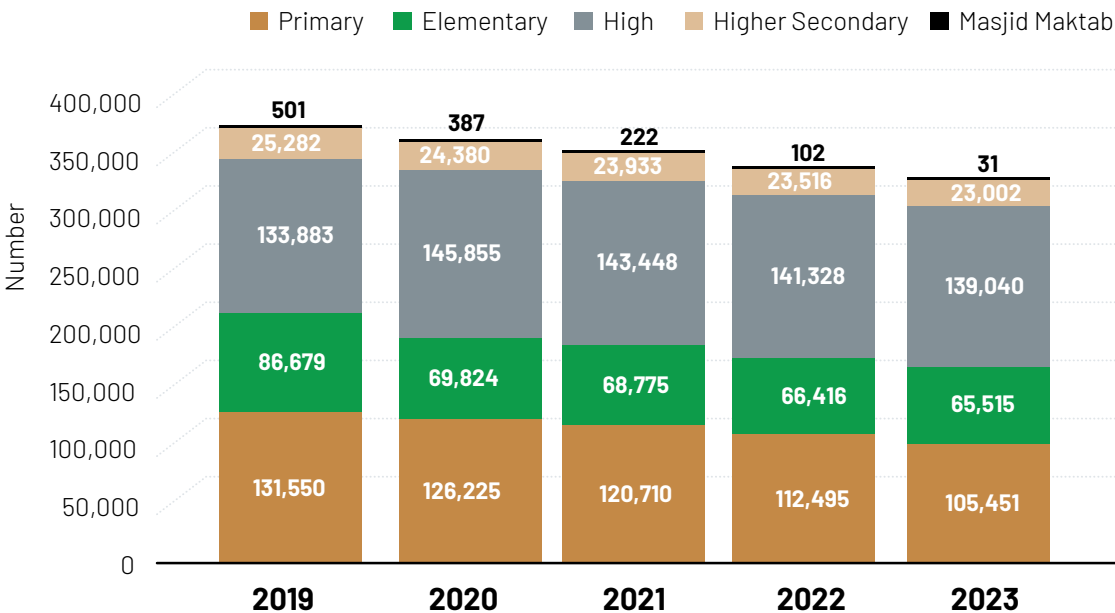

Figure 56: Number of teachers by level

i. Transgender Schools

Background:

To promote education for all, first transgender school was established in Multan in 2021. On the same pattern schools were opened in Bahawalpur, Lahore and Dera Ghazi Khan. On the similar patterns it was decided to open schools in all divisional headquarters of Punjab. For this purpose funding has been routed through ASPIRE project for establishment and operationisation of the 09 transgender schools.

Curriculum:

It has been decided to teach Accelerated Learning Program in these schools. The accelerated learning program is divided in 3 Packages, A,B and C respectively. Furthermore, a through teacher training has been conducted in May 2023 for this purpose with the help of JICA at QAED Lahore.

Incentives:

Many benefits and incentives are being given to students in these transgender schools, such as stipend based on attendance, support for transport, provision of bags, uniform, books etc.

Students

More than 500 students have been enrolled in these 09 schools in all divisional headquarters of Punjab.

DATA STANDARDIZATION FRAMEWORK (DSF)

6

The Ministry of Federal Education and Professional Training (MoFEPT) and Pakistan Institute of Education (PIE) are dedicated to harmonizing education data across Pakistan, laying the groundwork for EMIS 2.0. To achieve this objective, a Data Standardization Framework (DSF) has been developed, enabling Pakistan to fulfill its international commitments regarding SDG-4 education indicators. The availability of comparable data sets at the provincial and national levels supports the development of data-driven policies to address critical issues such as Out of School Children (OOSC), dropout rates, and retention rates. The implementation of DSF will further strengthen provincial databases while facilitating larger data exchanges.

In accordance with the Government of Punjab's commitment, the School Education Department has successfully implemented DSF during the ASC 2023-24. Data has been collected on 18 distinct DSF indicators, along with approximately 250 regular indicators, during the latest ASC 2023-24. The percentage occurrence of various school-level indicators is illustrated in the accompanying graphic. The inclusion of these indicators will facilitate data standardization for all public schools in Pakistan. Moreover, these indicators represent a crucial first step towards achieving vertical and horizontal integration for a national open-source data dashboard.

DATA STANDARDIZATION FRAMEWORK

0.05%	Refugee Students (5,433)
51.2%	Schools with ramp facility (24,797)
5.3%	Schools with day care facility (2,550)
17.9%	Schools with weekly reading hours sessions (8,684)
92.0%	Schools with meter installed and complete wiring (44,617)
1.0%	Teachers received training to teach special children (3,278)
99.7%	Grade-1 students received organized pre-primary class (1,126,847)
0.0%	Schools with incident of terrorist attached during last year (0)
0.01%	Schools with incident of corporal punishment during last year (3)
8.3%	Schools with ICT facility for pedagogical/teaching purposes (4,023)
1.8%	Teaching & Learning aids available to facilitate special children (872)
7.2%	Schools having digital resources for online teaching/learning purposes (3,487)
85.9%	Schools having minimum 6ft height of boundary wall from inside & main gate installed (41,659)
75.4%	Schools having any security arrangements (Security guard, barbed wire, CCTV camera, glass spikes, others) (36,569)

Figure 57: DSF variables

The ASC 2023-24 has collected data on various learning impediments among students, including hearing difficulties despite using hearing aids, visual difficulties despite wearing glasses, challenges with remembering or concentrating, and mobility issues with walking or climbing. These data are categorized into three levels of difficulty: some difficulty, a lot of difficulty, and cannot do at all. The count for each impairment with corresponding difficulty levels reveals valuable insights into the prevalence of these learning challenges, enabling targeted support and interventions to address these impediments. This data is crucial for developing inclusive education strategies and ensuring equal access to education for all students, particularly those with special needs.

Calculation Methodology:

Primary (Grade 1 to Grade 5) = (Enrollment of grade 2 to grade 5 of current year) / (Enrollment of grade 1 to grade 4 of previous year) * 100 - capped on 100% maximum

District, Year & Gender wise percentage of retention – Elementary (Grade 6 to Grade 8)

District	2019			2020			2021			2022			2023

II. School Census Form

EMIS Code:

PMIU-PESRP School Census Form 2023-24 as of March 2023

Basic Information

سکول کی بنیادی معلومات

EMIS Code	سکول کا ایس کوڈ	School Name	سکول کا نام	School Contact #	سکول کا فون نمبر
Address	پتہ	School Email	سکول کا ای میل		
District	ضلع	Tehsil	تھسیل	Markaz	مرکز
Moza	موضع				
Village / Mohalla	گاؤں	UC Name / No.	یو این کوئٹ	NA No.	قومی طلقہ
PP No.	صوبائی طلقہ				
Head CNIC / Name	سربراہ کا شناختی کارڈ / نام	Head Mobile #	سربراہ کا موبائل نمبر	Head Charge Type / Grade	Rural / Urban
				سربراہ کا چارج گریڈ	دیہی / شہری
School Type	سکول کی قسم	School Status	سکول کی موجودہ کیفیت	Medium	سکول کا میڈیم
Shift	سکول کی شفٹ				
School Gender	بظور سرکاری سکول	Studying Gender		School Level	سکول کا درجہ
Establishment Year	قائم شدہ				
Upgraded Primary School	بظور پرائمری سکول	Upgraded Middle School	بظور میڈل سکول	Upgraded High School	بظور ہائی سکول
Upgraded H.Sec. School	بظور ہائر سیکنڈری سکول				
Is Adopted by any Organization?	کیا کسی تنظیم نے اپنایا ہے؟				

Building Information

عمارت کی معلومات

Does school have building?	کیا سکول کی عمارت میں مل رہا ہے	If yes, building ownership?	اگر ہاں تو عمارت کی ملکیت	WAQF source
Is school at same place as established	سکول جہاں قائم ہوا اسی جگہ پر ہے؟	Is school at same place after upgradation?	سکول اسی جگہ پر ہے؟	
Construction Type	تعمیر کی نوعیت	Building Condition	عمارت کی صورت حال	Constructed Area
				تعمیر شدہ رقبہ
Total Area Kanal	کانال	Total Area Marla	مرلہ	Uncovered Area Kanal
				کانال
Uncovered Area Marla	مرلہ	Uncovered Area Where Construction can be made (Sqft)	مرج فٹ	
Has recent construction?	کیا سکول میں حالیہ تعمیر ہوئی ہے؟			
☐ Class Rooms	کلاس رومز	☐ Toilets	ٹوائلٹ	☐ Boundary Wall
☐ Laboratory	لائبریری	☐ Examination Hall	امتحان ہال	☐ Laboratory
				لیب

Class Rooms

تدریسی کمرے

Functional Class Rooms	تدریسی کمروں کی تعداد	Total Non Class Rooms	غیر تدریسی کمروں کی تعداد	Dangerous Class Rooms	خطرناک تدریسی کمروں کی تعداد
Dangerous Class Rooms by Building Department	خطرناک تدریسی کمرے کے کلاس رومز	Dangerous Non Class Rooms	خطرناک غیر تدریسی کمروں کی تعداد	Under Construction Class Rooms	زیر تعمیر کمروں کی تعداد
Total Classes in School	سکول میں پڑھائی جانے والی کلاسز کی تعداد	Total Class Sections	کلاسوں کے کئی سیکشنز کی تعداد	Class Sections in Open Air	کھلی فضا میں سیکشنز کی تعداد

Basic Facilities

سکول کی بنیادی سہولیات

Is drinking water available? کیا پینے کا پانی موجود ہے؟	If yes, Drinking Water Source پانی کا ذریعہ	Water quality پانی کا معیار
Is electricity available? کیا بجلی موجود ہے؟	Electricity Source بجلی کا ذریعہ	Is Meter installed? کیا میٹر نصب ہے؟
Is boundary wall available? کیا پار دیواری موجود ہے؟	If yes, boundary wall state اگر ہاں تو پار دیواری کی حالت	Boundary Wall Height Inside پار دیواری کی اونچائی
Main Gate	Ramp Available کیا ریمپ دستیاب ہے؟	Sewerage کیا نکاسی آب موجود ہے؟
Security Arrangements سیکیورٹی کی صورت حال	Firstaid Kit فرسٹ ایڈ کٹ موجود ہے؟	Fire Extinguisher آگ بجھانے کے آلات موجود ہیں؟
Canteen سکول میں کینٹین موجود ہے؟	Has hostel ہاسٹل کی سہولت موجود ہے؟	Debating Society بحث و مباحثہ سوسائٹی
Are toilets available? ٹوائلٹ موجود ہیں؟	If yes, usable فمشنل ٹوائلٹ	Need Repairing Toilets قابل مرمت ٹوائلٹ
Are female toilets available? خواتین کے ٹوائلٹ موجود ہیں؟	Female toilets خواتین کے ٹوائلٹ	Total کل ٹوائلٹ
Is Day Care Facility Available? کیا ڈے کیئر کی سہولت دستیاب ہے؟	Types of Learning Aid Available For Special Children? خصوصی بچوں کے لیے دستیاب لرننگ ایڈ کی اقسام؟	

Playing Facilities کھیلوں کی سہولیات			
☐ Cricket	☐ Cricket Equipment	☐ Football	☐ Football Equipment
☐ Hockey	☐ Hockey Equipment	☐ Badminton	☐ Badminton Equipment
☐ Volley Ball	☐ Volley Ball Equipment	☐ Table Tennis	☐ Tennis Equipment
☐ Throw Ball	☐ Throw Ball Equipment	☐ Hand Ball	☐ Hand Ball Equipment
☐ Net Ball	☐ Net Ball Equipment	☐ Basket Ball	☐ Basket Ball Equipment
☐ Other			

No. of chairs کرسیوں کی تعداد	No. of tables میزوں کی تعداد	Personal cabinets الماریوں کی تعداد
No. of student chairs طلباء کی کرسیوں کی تعداد	2 seater طلباء کے دو سیٹر چھانکی تعداد	3 seater طلباء کے تین سیٹر چھانکی تعداد
Any incident of Corporal Punishment? جسمانی سزا کا کوئی واقعہ؟	If yes, Reported to DEA/SED? اگر ہاں، تو DEA/SED کو رپورٹ کیا گیا؟	If yes, No. of incidents/complaints? اگر ہاں، واقعات / شکایات کی تعداد؟
Any incident of Terrorist Attack? دہشت گردی کا کوئی واقعہ؟	If yes, No. of attacks حملوں کی تعداد	If yes, Who was victim کون شکار ہوا؟
		Incident reported to Police? پولیس کو واقعہ کی اطلاع دی؟

School Council

سکول کونسل

Council notification date سکول کونسل کے نوٹیفکیشن کی تاریخ	Number of schools council meetings organized (2019 - 20) سکول میں کتنی کونسل میٹنگز منعقد کیں
--	---

Members of School Council

Total	Male	Female
Parents	Teachers	General
Council key decisions		

Accounts Information

اکاؤنٹس سے متعلق معلومات

Current amount in FTF/SC (as of 30-06-2023)	FTF/SC میں موجود رقم	Amount added in FTF (in FY 2022-23)	FTF میں رقم شامل کی گئی
Rs. 0		Rs. 0	
Official added amount in SC (in FY 2022-23)			SC میں سرکاری اضافی رقم
Rs. 0			
Non-official added amount in SC (in FY 2022-23)			SC میں غیر سرکاری اضافی رقم
Rs. 0			
Total amount spent from FTF/SC (in FY 2022-23)			FTF/SC سے خرچ شدہ کل رقم
Rs. 0			
Bank Account Number	بینک اکاؤنٹ نمبر	Bank Name	بینک کا نام

Balance in NSB (as of 01-07-2023) این ایس بی میں بیلنس

Cash نقد رقم	Bank بینک	Total
Rs. 0	Rs. 0	Rs. 0

Library Information

لائبریری کی معلومات

Does school have a library? کیا لائبریری موجود ہے؟	State حالت	Weekly Reading Hour Sessions ہفتہ وار پڑھنے کے اوقات کے سیشن	Books Count کتابوں کی کل تعداد
Religious books مذہبی	Technology books	Environment books ماحولیات	Atlas books اٹلس
History books تاریخ	Arts books فنون لطیفہ و دستکاری	Urdu dictionary اردو کثیری	English dictionary انگریزی کثیری
Agriculture books زراعت	Philosophy books فلسفہ	Psychology books نفسیات	Mathematic books اریاضی
Urdu books اردو	English books انگریزی	Science books سائنس	Other books دیگر کتابیں

Science Laboratory

سائنس لیبارٹری

Does school have a laboratory? کیا سکول میں سائنس کی لیبارٹری موجود ہے؟

Yes

SUBJECT	DOES SCHOOL HAVE?	APPARATUS
PHYSICS فزکس		
BIOLOGY بیالوجی		
CHEMISTRY کیمسٹری		
HOME ECONOMICS ہوم اکنامکس		
COMBINED کثیر الاقتصادی لیبارٹری		

Computer Laboratory

کمپیوٹر لیبارٹری

Is Computer Lab Available? کیا کمپیوٹر لیبارٹری موجود ہے؟	Is Internet Available? انٹرنیٹ موجود ہے؟	Type of Internet Connection انٹرنیٹ کنکشن کی قسم	Internet Connection Bandwidth انٹرنیٹ کنکشن کی رفتار
Total Computer کمپیوٹر کی تعداد	Students in Class کمپیوٹر کلاس میں طلباء کی تعداد	Has older generations	Has core i3 کیا کور آئی ٹری کی کمپیوٹر ہیں؟
Has core i5 کیا کور آئی ٹری کی کمپیوٹر ہیں؟	Has core i7 کیا کور آئی ٹری کی کمپیوٹر ہیں؟	Has other models کیا کوئی دوسرے ماڈل ہیں؟	
Other models دوسرے ماڈل			

Has printer پرنٹر موجود ہے؟	Has multimedia ملٹی میڈیا پروڈیوٹرز موجود ہے؟	Has smart board سمارٹ بورڈ موجود ہے؟	Functional tablets سکول میں فکشنل ٹیبلٹس کی تعداد
Is ICT available for pedagogical/teaching? کیا ICT تدریسی امداد کے لیے دستیاب ہے؟	If Yes, Types اقسام	Are digital resources available for online teaching & learning? کیا آن لائن تدریس اور سیکھنے کے لیے ڈیجیٹل وسائل دستیاب ہیں؟	
Is within Mobile Coverage Area? کیا موبائل کوریج ایریا میں ہے؟	If Yes, Best Coverage Providers بہترین کوریج فراہم کرنے والے	If Yes, Type of Coverage from Provider فراہم کنندہ سے کوریج کی قسم	

Early Child Education Program (ECE)

ECE پروگرام

Is room available for ECE? کیا سکول میں ای سی ای تدریسی کمرہ موجود ہے؟	Is ECE room under construction? کیا سکول میں ای سی ای تدریسی کمرہ زیر تعمیر ہے؟
Is ECE equipment available? کیا سکول میں ای سی ای سامان یا آلات موجود ہیں؟	Are ECE trained teachers available? کیا سکول میں ای سی ای تربیت یافتہ اساتذہ تینات ہیں؟
Is care-giver available? کیا سکول میں کنیئر گور تینات ہے؟	Has ECE kit? ای سی ای کٹ موجود ہے؟
ECE kit source ای سی ای کٹ کا ذریعہ	ECE room year ای سی ای کمرے کا سال
Is trained ECE teacher? کیا ای سی ای تربیت یافتہ استاد موجود ہے؟	ECE teacher name ای سی ای استاد کا نام
ECE room source ای سی ای کمرے کا ذریعہ	Has HT ECE training? ای سی ای تربیت کا سال
Has SC ECE training? ای سی ای کمرے کا ذریعہ	Has curriculum guide? ای سی ای تربیت کا سال
Has care giver training? کیا کنیئر گور تربیت کی سولت موجود ہے؟	Has age appropriate furniture? کیا عمر کے مطابق فرنیچر موجود ہے؟
Has ECE room painted? کیا ای سی ای کمرے میں پینٹ ہوا ہے؟	Has ECE room wall posters? کیا ای سی ای کمرے کی دیوار پر پوسٹر لگے؟

Trees Information

درختوں کی معلومات

Has tree register? شجر کاری کارڈسٹر موجود ہے؟	No. of trees سکول میں درختوں کی تعداد	No. of trees this year? موجودہ مالی سال میں لگنے گئے درخت کی تعداد
--	--	---

Undertaking on Census Data

I certify and verify that,

- I have reviewed the form thoroughly and that all the data is correct.
- All the teachers mentioned in the form are currently posted in the school.
- No other teacher is currently posted in the school.

I understand that in case incorrect data is submitted, disciplinary actions under PEEDA act will be taken against the relevant school head and supervisory staff.
